*Subject index**

A

Abruptio placentae, defibrination syndrome in infant born after (Edson et al.), 342
Abstracts, Midwest Society for Pediatric Research, Annual Meeting, 562
Acetazolamide, oral, failure to avert hydrocephalus in infants with myelomeningocele (Mealey and Barker) (BCLO), 257
Acid, mefenamic—antipyretic for use in children (Weiss et al.), 867
  metabolism, uric, and cerebral function, effects of azathioprine in disorder (Nyhan et al.), 111
  uric, excessive production, in type I glycogen storage disease (Kelley et al.), 488
Adenovirus type 7, neonatal infection caused by (Angella and Connor), 474
  (21-16), intermediate, and influenza A_2: fatal illness associated with two viruses (Crandell et al.), 467
Age, gestational, birth weight, and sex as determining factors in incidence of respiratory distress syndrome of prematurely born infants (Miller and Futrakul), 628
Agenesis, sacral, possible cause in man: exposure to fat solvents (Kučera) (BCLO), 857
Agent, chelating, deferoxamine (McEnery) (Letter), 148; (Leikin) (Reply), 149
Aggressive behavior in preschool child (McRae and Lowe), 821
AHG (Factor VIII) inhibitor, antibody nature (Lusher et al.), 325
Albumin and salivary immunoglobulin: development during newborn period (Selner, Merrill, and Claman) (BCLO), 685
Ampicillin, concentration in exudate from acute otitis media (Coffey) (BCLO), 693
  and neomycin, double-blind study with, comparison of orally absorbable and nonabsorbable antibiotics in shigellosis (Haltalin et al.), 708
Anemia in childhood, copper sulfate method of screening for (Okoroma and Charney) (BCLO), 384
  hemolytic, in low-birth-weight infants (Lovric et al.) (Letter), 431; (Oski and Barness) (Reply), 431
  iron-deficiency, red cell metabolism in (Macdougall), 303
  pernicious, in second decade of life (Lampkin and Schubert) (BCLO), 387
Announcements, 150, 298, 434, 591, 747, 910
Anomalies, congenital, evidence for genetic factor related to leukemogenesis and: chromosomal aberrations in pedigree of infant with partial D trisomy and leukemia (Zuelzer, Thompson, and Mastrangelo), 367
  renal, genital, and middle ear, familial syndrome (Winter et al.), 88
Anoxia and resuscitation in newborn rabbits, effect of pretreatment with pentobarbital, meperidine, or hyperbaric oxygen on response to (Campbell, Milligan, and Talner), 518
Antepartum diagnosis of genetic diseases (Dancis) (Editor's column), 301
Antibiotics in shigellosis, comparison of orally absorbable and nonabsorbable; double-blind study with ampicillin and neomycin (Haltalin et al.), 708
Antibody nature of AHG (Factor VIII) inhibitor (Lusher et al.), 325
Antihemophilic factor, glycine-precipitated, use during surgery in hemophilic patient (Garvey et al.), 332
Antipyretic, mefenamic acid, for use in children (Weiss et al.), 867
Aorta, recurrent coarctation in infancy and childhood (Khoury and Hawes), 801
Arteriotomies in infants and children, topical papaverine in: effect on incidence of thrombosis (Izukawa, Varghese, and Rowe) (BCLO), 853
Artery, single umbilical (Harris and Van Leeuwen) (BCLO), 98
  stenosis, pulmonary, cutis laxa associated with (Hayden, Talner, and Klaus), 506
  systemic and pulmonary, multiple stenoses, hypertension and mitral incompetence associated with, in Caucasian child (Loggie et al.) (BCLO), 101
Arthritis, rheumatoid, juvenile, rash associated with (Calabro and Marchesano), 611
Aspirate, marrow, bone, Wilms' tumor (O'Neill and Pinkel) (BCLO), 396
Azathioprine, effects in disorder of uric acid metabolism and cerebral function (Nyhan et al.), 111

B

Bacteria, viruses, and M. pneumoniae as causes of lower respiratory tract infections in children, studies on role (Loda et al.), 161
  role: etiology of acute respiratory infections (Macasaet et al.), 829

*January, pp. 1-160; February, pp. 161-302; March, pp. 303-442; April, pp. 443-598; May, pp. 599-756; June, pp. 757-936.

Bacteroides infections in children (Sanders and Stevenson), 673
Battered-child syndrome, skin manifestations (Sussman) (BCLO), 99
Behavior, aggressive, in preschool child (McRae and Lowe), 821
mental development, and termination of low phenylalanine diet: phenylketonuria (Hackney et al.), 646
Belladonna, purposeful ingestion for hallucinatory effects (Gabel), 864
Bilirubin, concentrations, serum, and motor development, correlation (Zachau-Christiansen and Vollmond) (Letter), 432
in peripheral blood, CSF, and fat tissues, effect of pH on distribution (Sawitsky, Cheung, and Seifter), 700
Biopsy, brain, and treatment with 5-iodo-2′-deoxyuridine: herpes simplex encephalitis (Bellanti et al.), 266
needle, percutaneous, of quadriceps muscle: potassium analysis in normal children (Nichols, Hazlewood, and Barnes), 840
Birth-weight, low, infants, hemolytic anemia in (Lovric et al.) (Letter), 431; (Oski and Barness) (Reply), 431
Bladder capacity, functional, increase in, and improvements in enuresis (Starfield and Mellits), 483
stone disease, pediatric; current status of research (Valyasevi and Van Reen), 546
Blast transformation of lymphocytes from newborn human infants (Leikin, Mochir-Fatemi, and Park), 510
Blood, maternal, aspiration, in etiology of massive pulmonary hemorrhage in newborn infant (Ceballos) (BCLO), 390
peripheral, CSF, and fat tissues, effect of pH on distribution of bilirubin in (Sawitsky, Cheung, and Seifter), 700
Bone marrow aspirate, Wilms' tumor (O'Neill and Pinkel) (BCLO), 396
hypoplasia (McMillan et al.) (Letter), 433
Book reviews, 144, 429, 741, 907
Bottle propping for infant feeding (Taubenhaus), 669
Brachydactyly and hip disease, hereditary (Robinson et al.) (BCLO), 539
Brain biopsy and treatment with 5-iodo-2′-deoxyuridine: herpes simplex encephalitis (Bellanti et al.), 266
Breakage, chromosomal, human (German) (Editor's column), 440
Bullosa, hereditaria, epidermolysis, silver nitrate therapy, of newborn (Keller) (BCLO), 854

C

Calcinosis, tumoral, and pseudoxanthoma elasticum (Najjar et al.), 243
Carcinoma, hepatocellular, in association with a specific fetal α-globulin, fetoprotein (Houštěk et al.), 186
thyroid, hyperfunctioning, hyperthyroidism attributable to (Sussman, Librik, and Clayton), 208
Cardiac compression, internal, and open pericardial drainage in infant, simplified method (Gengos, Celermajer, and Morgan) (BCLO), 543
Cell culture, human: important tool for diagnosis and understanding of disease (Priest), 415
red, glutathione-peroxidase deficiency and hemolytic disease of newborn infant (Necheles, Boles, and Allen), 319
metabolism, in iron-deficiency anemia (Macdougall), 303
Cerebral function and uric acid metabolism, effects of azathioprine in disorder (Nyhan et al.), 111
gigantism (Hook) (Letter), 147
Cerebrospinal fluid, peripheral blood, and fat tissues, effect of pH on distribution of bilirubin in (Sawitsky, Cheung, and Seifter), 700
Chelating agent, deferoxamine (McEnery) (Letter), 148; (Leikin) (Reply), 149
Chromosomal aberrations in pedigree of infant with partial D trisomy and leukemia: evidence for genetic factor related to leukemogenesis and congenital anomalies (Zuelzer, Thompson, and Mastrangelo), 367
breakage, human (German) (Editor's column), 440
mosaicism, mental retardation, absence of patellae, and other malformations with (Nakagome, Warkany, and Rubinstein) (BCLO), 695
Circumcision, penile urethral fistula as complication (Limaye and Hancock) (BCLO), 105
Cleft palate, polydactyly, and micrognathia (Lowry, Miller, and MacLean) (BCLO), 859
Clubbing, digital, hepatic disease, and cyanosis, syndrome in siblings (Silverman et al.), 70
Coagulation defects and metastatic neuroblastoma (McMillan, Gaudry, and Holemans), 347
Coarctation, recurrent, of aorta in infancy and childhood (Khoury and Hawes), 801
Compendium on shortness of stature (Aberfeld) (Letter), 295; (Smith) (Reply), 296
Compression, cardiac, internal, and open pericardial drainage in infant, simplified method (Gengos, Celermajer, and Morgan) (BCLO), 543
Conference on Vaccines Against Viral and Rickettsial Diseases (Parrott), 134
Congenital anomalies and leukemogenesis, evidence for genetic factor related to: chromosomal aberrations in pedigree of infant with partial D trisomy and leukemia (Zuelzer, Thompson, and Mastrangelo), 367
heart diseases, differential cyanosis in (Hipona and Sanyal), 194
hepatic fibrosis presenting as hepatomegaly in early infancy (ten Bensel and Peters) (BCLO), 96

Congenital—Cont'd
malformations, methotrexate-induced (Milunsky, Graef, and Gaynor), 790
rubella syndrome with immunoglobulin disorder (Hancock, Huntley, and Sever), 636
skin defects of newborn infant (Ricketts et al.) (BCLO), 537
thymic dysplasia, lymphocyte studies: one-way stimulation test (Meuwissen et al.), 177
Conradi's disease (Comings, Papazian, and Schoene), 63
Copper sulfate method of screening for anemia in childhood (Okoroma and Charney) (BCLO), 384
Counseling, genetic, rationale (Murphy), 121
psychiatric, on pediatric medical ward: controlled evaluation (Minde and Maler), 452
Craniopharyngioma, iatrogenic hypopituitarism in: unexplained catch-up growth in three children (Kenny et al.), 766
Ctenoids, 14 & 6/second positive spiking, in electroencephalograms of primary school pupils (Schwartz and Lombroso), 678
Culture, cell, human: important tool for diagnosis and understanding of disease (Priest), 415
Cutis laxa associated with pulmonary artery stenosis (Hayden, Talner, and Klaus), 506
Cyanosis, differential, in congenital heart disease (Hipona and Sanyal), 194
digital clubbing, and hepatic disease, syndrome in siblings (Silverman et al.), 70
Cyst, subglottic, iatrogenic, fatal laryngeal obstruction by (Wigger and Tang), 815
Cytogenetics, medical (Wright) (B. rev.), 144
Cytomegalic inclusions, postmortem, and cytomegaloviruria, incidence in children with acute leukemia (Dyment et al.) (BCLO), 533
Cytomegaloviruria and postmortem cytomegalic inclusions, incidence in children with acute leukemia (Dyment et al.) (BCLO), 533
Cytomegalovirus in salivary gland tissue, search for reservoir (ten Bensel and St. Geme), 479

D

Damage, central nervous system, and hypoglycemia (Blattner) (Comments), 904
Deaths, unexpected, sudden, of infants, immunoglobulin levels in (Balduzzi, Vaughan, and Greendyke) (BCLO), 689
Defects, skin, congenital, of newborn infant (Ricketts et al.) (BCLO), 537
Deferoxamine as chelating agent (McEnery) (Letter), 147; (Leikin) (Reply), 148
Defibrination syndrome in infant born after abruptio placentae (Edson et al.), 342
Deficiency, erythrocyte, glutathione-peroxidase, and hemolytic disease of newborn infant (Necheles, Boles, and Allen), 319
Deficiency—Cont'd
Factor VIII: concentration in relatives of patients and in normal infants (Bouhasin and Altay), 336
IgA, and susceptibility to infection, comment on (West) (Editor's column), 153
in infants (Buser, Bütler, and Du Pan), 29
Deoxyuridine, 5-iodo-2'-, treatment with, brain biopsy: herpes simplex encephalitis (Bellanti et al.), 266
Dermatoglyphic observations in patient with trisomy 18 (Ross) (BCLO), 862
Development during newborn period: salivary immunoglobulin and albumin (Selner, Merrill, and Claman) (BCLO), 685
mental, behavior, and termination of low phenylalanine diet: phenylketonuria (Hackney et al.), 646
motor, and serum bilirubin concentrations, correlation (Zachau-Christiansen and Vollmond) (Letter), 432
Dextrinosis, limit, genetic study, studies in glycogen storage disease (Williams and Field), 214
Diabetes mellitus, Down's syndrome, and hypothyroidism (Daniels and Simon) (BCLO), 697
Diabetic mothers, mechanism responsible for overweight infants (Ziegler) (Letter), 908; (Medovy) (Reply), 908
Diagnosis, antepartum, of genetic diseases (Dancis) (Editor's column), 301
preoperative, of intramural duodenal hematoma (Darby, Johnson, and Till) (BCLO), 393
and understanding of disease, important tool: human cell culture (Priest), 415
verification, evaluation of therapy and: phenylketonuria (Castells and Brandt), 34
Diaper, low-mineral ash, developed for strontium balance studies in infants (Wellman and Kahn) (BCLO), 108
Diarrhea, severe infantile, epidemiology and etiology (Moffet, Shulenberger, and Burkholder), 1
Diastrophic dwarfism (Vazquez and Lee), 234
Diet, phenylalanine, low, termination, mental development, and behavior: phenylketonuria (Hackney et al.), 646
Dietary treatment, long-term, of tyrosinosis (Aronsson et al.), 620
of phenylketonuria, some observations on (O'Flynn and Hsia) (BCLO), 260
Digital clubbing, hepatic disease, and cyanosis, syndrome in siblings (Silverman et al.), 70
Diplococcus pneumoniae, identification (Ross and Putter) (Letter), 560; (Glasgow) (Reply), 561
Disease(s) in children, common symptoms (Smith) (B. rev.), 429
Conradi's (Comings, Papazian, and Schoene), 63
fibrocystic, tyrosine in (Zack et al.) (BCLO), 692

Disease(s)—Cont'd
genetic, antepartum diagnosis (Dancis) (Editor's column), 301
glycogen storage, studies in, limit dextrinosis: a genetic study (Williams and Field), 214
type I, excessive production of uric acid in (Kelley et al.), 488
III (Moses, Levin, and Chayoth) (Letter), 297
heart, congenital, differential cyanosis in (Hipona and Sanyal), 194
spurious, in athletic children (Harris) (Editor's column), 755
(Marcano and Moss), 664
hemolytic, and erythrocyte glutathione-peroxidase deficiency of newborn infant (Necheles, Boles, and Allen), 319
hereditable, genetic basis for variability (Mellman), 727
important tool for diagnosis and understanding, use of human cell culture (Priest), 415
Niemann-Pick: reticuloendotheliosis (Blattner) (Comments), 291
old, chronic nephritis, new cause (McCrory) (Editor's column), 912
stone, bladder, pediatric; current status of research (Valyasevi and Van Reen), 546
Viral and Rickettsial, Vaccines Against, Conference on (Parrott), 134
Doman-Delacato theory of neuropsychology (Morrison) (Letter), 746
treatment of neurologically handicapped children (Official statement) (Announcements), 750
Down's syndrome, hypothyroidism, and diabetes mellitus (Daniels and Simon) (BCLO), 697
Drainage, pericardial, open, and internal cardiac compression in infant, simplified method (Gengos, Celermajer, and Morgan) (BCLO), 543
Dwarfism, diastrophic (Vazquez and Lee), 234
Duodenal hematoma, intramural, preoperative diagnosis (Darby, Johnson, and Till) (BCLO), 393
Dysgenesis, endocrine, familial holoprosencephaly with (Hintz, Menking, and Sotos), 81
Dysplasia, ectodermal, hypohidrotic, diminished sweat pores in, new method for assessment (Frias and Smith), 606
thymic, congenital, lymphocyte studies in, one-way stimulation test (Meuwissen et al.), 177

E

Ear, middle, renal, and genital anomalies, familial syndrome (Winter et al.), 88
ECHO virus type 22, transplacental infection (Berkovich and Smithwick) (BCLO), 94
Ectodermal dysplasia, hypohidrotic, diminished sweat pores in, new method for assessment (Frias and Smith), 606
Editorial comment: therapeutic orphans (Shirkey), 119
Elasticum, pseudoxanthoma, and tumoral calcinosis (Najjar et al.), 243
Electroencephalograms of primary school pupils, 14 & 6/second positive spiking (ctenoids) (Schwartz and Lombroso), 678
Elevation, nonsurgical, of depressed skull fracture in infant (Raynor and Parsa) (BCLO), 262
Encephalitis, herpes simplex: brain biopsy and treatment with 5-iodo-2′-deoxyuridine (Bellanti et al.), 266
sclerosing, subacute (Périer and Vanderhaeghen) (Letter), 743; (Blattner) (Reply), 743
Endocrine dysgenesis, familial holoprosencephaly with (Hintz, Menking, and Sotos), 81
Enuresis, improvements in, and increase in functional bladder capacity (Starfield and Mellits), 483
Epidemic acute glomerulonephritis and streptococcal infections in South Trinidad (Potter et al.), 871
Epidemiology and etiology of severe infantile diarrhea (Moffet, Shulenberger, and Burkholder), 1
Epidermolysis bullosa hereditaria, silver nitrate therapy, of newborn (Keller) (BCLO), 854
Epithelial hypoplasia, thymic, sex-linked, in two siblings (Dooren et al.), 51
Erythrocyte glutathione-peroxidase deficiency and hemolytic disease of newborn infant (Necheles, Boles, and Allen), 319
metabolism in iron-deficiency anemia (Macdougall), 303
Etiology, epidemiology and, of severe infantile diarrhea (Moffet, Shulenberger, and Burkholder), 1
Exanthem, atypical, following exposure to natural measles: eleven cases in children previously inoculated with killed vaccine (Nader, Horowitz, and Rousseau), 22
Exposure to fat solvents: possible cause of sacral agenesis in man (Kučera) (BCLO), 857
Exudate from acute otitis media, concentration of ampicillin in (Coffey) (BCLO), 693

F

Factor, antihemophilic, glycine-precipitated, use during surgery in hemophilic patient (Garvey et al.), 332
genetic, evidence for, related to leukemogenesis and congenital anomalies: chromosomal aberrations in pedigree of infant with partial D trisomy and leukemia (Zuelzer, Thompson, and Mastrangelo), 367
VIII, AHG inhibitor, antibody nature (Lusher et al.), 325
XIII deficiency: concentrations in relatives of patients and in normal infants (Bouhasin and Altay), 336
Familial holoprosencephaly with endocrine dysgenesis (Hintz, Menking, and Sotos), 81

Familial—Cont'd
syndrome of renal, genital, and middle ear anomalies (Winter et al.), 88
Fat solvents, exposure to: possible cause of sacral agenesis in man (Kučera) (BCLO), 857
Feeding, bottle propping, for infant (Taubenhaus), 669
Fetoprotein, hepatocellular carcinoma in association with a specific fetal α_1-globulin (Houštěk et al.), 186
Fibrocystic disease, tyrosine in (Zack et al.) (BCLO), 692
Fibrosis, congenital hepatic, presenting as hepatomegaly in early infancy (ten Bensel and Peters) (BCLO), 96
Fistula, penile urethral, as complication of circumcision (Limaye and Hancock) (BCLO), 105
Focal myocarditis of Purkinje system, fatal paroxysmal tachycardia associated with, in 14-month-old girl (Sevy, Kelly, and Ernst), 796
Fracture, skull, depressed, nonsurgical elevation in infant (Raynor and Parsa) (BCLO), 262

G

Gangrenosum, pyoderma, treated with 6-mercaptopurine and followed by acute leukemia (Maldonado et al.), 409
Gardner syndrome: need for early diagnosis (Duncan, Dohner, and Priest), 497
Genetic basis for variability of hereditable diseases (Mellman), 727
counseling, rationale (Murphy), 121
diseases, antepartum diagnosis (Dancis) (Editor's column), 301
factor, evidence for, related to leukemogenesis and congenital anomalies: chromosomal aberrations in pedigree of infant with partial D trisomy and leukemia (Zue'zer, Thompson, and Mastrangelo), 367
study, limit dextrinosis, studies in glycogen storage disease (Williams and Field), 214
Genital, renal, and middle ear anomalies, familial syndrome (Winter et al.), 88
Gestational age, birth weight, and sex as determining factors in incidence of respiratory distress syndrome of prematurely born infants (Miller and Futrakul), 628
Gigantism, cerebral (Hook) (Letter), 147
Gland tissue, salivary, search for reservoir of cytomegalovirus in (ten Bensel and St. Geme), 479
α_1-Globulin, fetal, fetoprotein, hepatocellular carcinoma in association with a specific (Houštěk et al.), 186
Glomerulonephritis, acute, epidemic, and streptococcal infections in South Trinidad (Potter et al.), 871
experimental, in rabbits (Blattner) (Comments), 737
Glutathione-peroxidase deficiency, erythrocyte, and hemolytic disease of newborn infant (Necheles, Boles, and Allen), 319
Glycine-precipitated antihemophilic factor, use during surgery in hemophilic patient (Garvey et al.), 332
Glycogen storage disease, studies in; limit dextrinosis: genetic study (Williams and Field), 214
type I, excessive production of uric acid in (Kelley et al.), 488
III (Moses, Levin, and Chayoth) (Letter), 297
Growth, catch-up, unexplained, in three children: iatrogenic hypopituitarism in craniopharyngioma (Kenny et al.), 766
rates and mortality rates, intrauterine (Valaes) (Letter), 743; (Van den Berg and Yerushalmy) (Reply), 745
retardation, idiopathic, renal excretion of hydrogen ion in children with (Edelmann et al.), 443

H

Hallucinatory effects, purposeful ingestion of belladonna for (Gabel), 864
Health services, Project Head Start: guide for project directors and health personnel (B. rev.), 429, 741
Heart disease, congenital, differential cyanosis in (Hipona and Sanyal), 194
spurious, in athletic children (Harris) (Editor's column), 755
(Marcano and Moss), 664
rate changes to sudden peripheral stimuli in human during early infancy (Gray and Crowell), 807
Hemangiomas, juvenile, successful treatment with prednisone (Fost and Esterly), 351
Hematoma, duodenal, intramural, preoperative diagnosis (Darby, Johnson, and Till) (BCLO), 393
Hemolytic anemia in low-birth-weight infants (Lovric et al.) (Letter), 431; (Oski and Barness) (Reply), 431
disease and erythrocyte glutathione-peroxidase deficiency of newborn infant (Necheles, Boles, and Allen), 319
-uremic syndrome (Gianantonio et al.), 757
Hemophilic patient, use of glycine-precipitated antihemophilic factor during surgery in (Garvey et al.), 332
Hemorrhage, pulmonary, massive, in newborn infant, aspiration of maternal blood in etiology (Ceballos) (BCLO), 390
Hepatic disease, cyanosis, and digital clubbing, syndrome in siblings (Silverman et al.), 70
fibrosis, congenital, presenting as hepatomegaly in early infancy (ten Bensel and Peters) (BCLO), 96
Hepatocellular carcinoma in association with a specific fetal α_1-globulin, fetoprotein (Houštěk et al.), 186

Hepatomegaly, congenital hepatic fibrosis presenting as, in early infancy (ten Bensel and Peters) (BCLO), 96
Hereditable diseases, genetic basis for variability (Mellman), 727
Hereditaria, bullosa, epidermolysis, silver nitrate therapy, of newborn (Keller) (BCLO), 854
Hernia, hiatal (Blattner) (Comments), 424
Herpes simplex encephalitis: brain biopsy and treatment with 5-iodo-2′-deoxyuridine (Bellanti et al.), 266
Hiatal hernia (Blattner) (Comments), 424
Hip disease and hereditary brachydactyly (Robinson et al.) (BCLO), 539
Holoprosencephaly, familial, with endocrine dysgenesis (Hintz, Menking, and Sotos), 81
Hospitalized child and his family (Garfunkel) (B. rev.), 430
Hydrocephalus in infants with myelomeningocele, failure of oral acetazolamide to avert (Mealy and Barker) (BCLO), 257
Hydrogen ion, renal excretion, in children with idiopathic growth retardation (Edelmann et al.), 443
Hyperbaric oxygen, meperidine, or pentobarbital, effect of pretreatment with, on response to anoxia and resuscitation in newborn rabbits (Campbell, Milligan, and Talner), 518
Hyperphenylalaninemia, transient (Castells et al.) (BCLO), 530
Hypersensitivity, skin, and in vitro lymphocytic reactivity to tuberculin in childhood (Matsaniotis et al.), 599
Hypertension and mitral incompetence associated with multiple systemic and pulmonary artery stenoses in Caucasian child (Loggie et al.) (BCLO), 101
Hyperthyroidism attributable to hyperfunctioning thyroid carcinoma (Sussman, Librik, and Clayton), 208
Hyperuricemia, acute, prevention and management in childhood leukemia (Holland and Holland), 358
Hypoglycemia and CNS damage (Blattner) (Comments), 904
  tolbutamide tolerance test and insulin-plasma response in (Drash, Chiumello, and Kenny) (Letter), 557; (Ehrlich and Martin) (Reply), 559
Hypohidrotic ectodermal dysplasia, sweat pores in, new method for assessment (Frias and Smith), 606
Hypophosphatasia: clinical and metabolic studies (Teree and Klein), 41
Hypopituitarism, iatrogenic, in craniopharyngioma: unexplained catch-up growth in three children (Kenny et al.), 766
Hypoplasia, marrow, bone (McMillan et al.) (Letter), 433
  sex-linked, thymic epithelial, in two siblings (Dooren et al.), 51
Hypothyroidism, Down's syndrome, and diabetes mellitus (Daniels and Simon) (BCLO), 697

I

Iatrogenic hypopituitarism in craniopharyngioma: unexplained catch-up growth in three children (Kenny et al.), 766
  subglottic cyst, fatal laryngeal obstruction by (Wigger and Tang), 815
Idiopathic growth retardation, renal excretion of hydrogen ion in children with (Edelmann et al.), 443
IgA deficiency and susceptibility to infection, comment on (West) (Editor's column), 153
  in infant (Buser, Bütler, and Du Pan), 29
Immunoglobulin disorder, congenital rubella syndrome with (Hancock, Huntley, and Sever), 636
  (Gm and Inv) and β-lipoproteins (Ag), inherited types, isoantibodies to (Vierucci et al.), 776
  levels, development in man (Allansmith et al.), 276
    in sudden unexpected deaths of infants (Baʻduzzi, Vaughan, and Greendyke) (BCLO), 689
  salivary, and albumin: development during newborn period (Selner, Merrill, and Claman) (BCLO), 685
Immunology, progress in (Janeway), 885
Inclusions, cytomegalic, postmortem, and cytomegaloviruria, incidence in children with acute leukemia (Dyment et al.), (BCLO), 533
Infantile diarrhea, severe, epidemiology and etiology (Moffet, Shulenberger, and Burkholder), 1
Infarction, myocardial, ventricular, left, posttraumatic, and rupture in infancy (Price et al.), 656
Infection(s), bacteroides, in children (Sanders and Stevenson), 673
  comment on IgA deficiency and susceptibility to (West) (Editor's column), 153
  lower respiratory tract, in children, studies on the role of viruses, bacteria, and M. pneumoniae (Loda et al.), 161
  mumps, isolation of virus during incubation period (Ennis and Jackson) (BCLO), 536
  mycoplasma (Blattner) (Comments), 554
  neonatal, caused by adenovirus type 7 (Angella and Connor), 474
  respiratory, acute, etiology: role of viruses and bacteria (Macasaet et al.), 829
  streptococcal, and epidemic acute glomerulonephritis in South Trinidad (Potter et al.), 871
  susceptibility to, and IgA deficiency in infant (Buser, Bütler, and Du Pan), 29
  transplacental, due to ECHO virus type 22 (Berkovich and Smithwick) (BCLO), 94

Influenza A_2 and intermediate adenovirus type (21-16): fatal illness associated with two viruses (Crandell et al.), 467
Ingestion of belladonna, purposeful, for hallucinatory effects (Gabel), 864
Innocent murmur; problem in clinical practice (Goldring) (B. rev.), 907
Insulin plasma-, response and tolbutamide tolerance test in hypoglycemia (Drash, Chiumello, and Kenny) (Letter), 557; (Ehrlich and Martin) (Reply), 559
Intramural duodenal hematoma, preoperative diagnosis (Darby, Johnson, and Till) (BCLO), 393
Intrauterine growth rates and mortality rates (Valaes) (Letter), 743; (Van den Berg and Yerushalmy) (Reply), 745
Ion, hydrogen, renal excretion, in children with idiopathic growth retardation (Edelmann et al.), 443
Ipecac, dispensing by physician vs. prescription (Bloom and Graubarth) (Letter), 560
Iron-deficiency anemia, red cell metabolism (Macdougall), 303
Isoantibodies to inherited types of β-lipoproteins (Ag) and immunoglobulins (Gm and Inv) (Vierucci et al.), 776
Isoniazid prophylaxis in tuberculin reactors (Blattner) (Comments), 131

J

Juvenile hemangiomas, successful treatment with prednisone (Fost and Esterly), 351
myxedema and chronic lymphocytic thyroiditis in uniovular twins (Foley et al.), 201
rheumatoid arthritis, rash associated with (Calabro and Marchesano), 611

K

Kwashiorkor, do we know how to treat (Wharton, Jelliffe, and Stanfield), 721

L

Laryngeal obstruction, fatal, by iatrogenic subglottic cyst (Wigger and Tang), 815
Laxa, cutis, associated with pulmonary artery stenosis (Hayden, Talner, and Klaus), 506
Letters to the Editor, 147, 295, 431, 557, 743
Leukemia, acute, incidence of cytomegaloviruria and postmortem cytomegalic inclusions in children with (Dyment et al.) (BCLO), 533
pyoderma gangrenosum treated with 6-mercaptopurine and followed by (Maldonado et al.), 409
childhood, prevention and management of acute hyperuricemia in (Holland and Holland), 358
lymphocytic, acute, study of total therapy in children (George et al.), 399
myelocytic, chronic, in infant siblings (Holton and Johnson), 377
Leukemia—Cont'd
and partial D trisomy, chromosomal aberrations in pedigree of infant with: evidence for genetic factor related to leukemogenesis and congenital anomalies (Zuelzer, Thompson, and Mastrangelo), 367
Leukemogenesis and congenital anomalies, evidence for genetic factor related to: chromosomal aberrations in pedigree of infant with partial D trisomy and leukemia (Zuelzer, Thompson, and Mastrangelo), 367
β-Lipoproteins (Ag) and immunoglobulins (Gm and Inv), inherited types, isoantibodies to (Vierucci et al.), 776
Lymphocyte studies in congenital thymic dysplasia: one-way stimulation test (Meuwissen et al.), 177
Lymphocytes from newborn human infants, blast transformation (Leikin, Mochir-Fatemi, and Park), 510
Lymphocytic leukemia, acute, study of total therapy in children (George et al.), 399
reactivity, in vitro, and skin hypersensitivity to tuberculin in childhood (Matsaniotis et al.), 599
thyroiditis, chronic, and juvenile myxedema in uniovular twins (Foley et al.), 201

M

Malformations, congenital, methotrexate-induced (Milunsky, Graef, and Gaynor), 790
other, mental retardation, and absence of patellae with chromosomal mosaicism (Nakagome, Warkany, and Rubinstein) (BCLO), 695
Marcescens osteomyelitis, serratia, in infant (Nelms et al.), 222
Marrow aspirate, bone, Wilms' tumor (O'Neill and Pinkel) (BCLO), 396
hypoplasia, bone (McMillan et al.) (Letter), 433
Measles, atypical exanthem following exposure to: eleven cases in children previously inoculated with killed vaccine (Nader, Horowitz, and Rousseau), 22
Mechanism responsible for overweight infants of diabetic mothers (Ziegler) (Letter), 908; (Medovy) (Reply), 908
Media, otitis, acute, concentration of ampicillin in exudate from (Coffey) (BCLO), 693
Medical cytogenetics (Wright) (B. rev.), 144
Mefenamic acid—antipyretic for use in children (Weiss et al.), 867
Mellitus, diabetes, Down's syndrome, and hypothyroidism (Daniels and Simon) (BCLO), 697
Mental development, behavior, and termination of low phenylalanine diet: phenylketonuria (Hackney et al.), 646

Mental—Cont'd
retardation, absence of patellae, and other malformations with chromosomal mosaicism (Nakagome, Warkany, and Rubinstein) (BCLO), 695
pathology (Rabe) (B. rev.), 741
Meperidine, pentobarbital, or hyperbaric oxygen, effect of pretreatment with, on response to anoxia and resuscitation in newborn rabbits (Campbell, Milligan, and Talner), 518
6-Mercaptopurine, pyoderma gangrenosum treated with, followed by acute leukemia (Maldonado et al.), 409
Metabolic studies, clinical and: hypophosphatasia (Teree and Klein), 41
Metabolism, red cell, in iron-deficiency anemia (Macdougall), 303
uric acid, and cerebral function, effects of azathioprine in disorder (Nyhan et al.), 111
Metastatic neuroblastoma and coagulation defects (McMillan, Gaudry, and Holemans), 347
Methotrexate-induced congenital malformations (Milunsky, Graef, and Gaynor), 790
Micrognathia, polydactyly, and cleft palate (Lowry, Miller, and MacLean) (BCLO), 859
Mitral incompetence and hypertension associated with multiple systemic and pulmonary artery stenoses in Caucasian child (Loggie et al.) (BCLO), 101
Mortality rates and growth rates, intrauterine (Valaes) (Letter), 743; (Van den Berg and Yerushalmy) (Reply), 745
Mosaicism, chromosomal, mental retardation, absence of patellae, and other malformations with (Nakagome, Warkany, and Rubinstein) (BCLO), 695
Motor development and serum bilirubin concentrations, correlation (Zachau-Christiansen and Vollmond) (Letter), 432
Mumps infection, isolation of virus during incubation period (Ennis and Jackson) (BCLO), 536
vaccine, virus, live, field evaluation (Sugg et al.), 461
Murmur, innocent; problem in clinical practice (Goldring) (B. rev.), 907
Muscle, quadriceps, percutaneous needle biopsy: potassium analysis in normal children (Nichols, Hazlewood, and Barnes), 840
Mycoplasma infection (Blattner) (Comments), 554
pneumoniae, bacteria, and viruses as causes of lower respiratory tract infections in children, studies on role (Loda et al.), 161
Myelocytic leukemia, chronic, in infant siblings (Holton and Johnson), 377
Myelomeningocele, failure of oral acetazolamide to avert hydrocephalus in infants with (Mealy and Barker) (BCLO), 257
Myocarditis, focal, of Purkinje system, fatal paroxysmal tachycardia associated with, in 14-month-old girl (Sevy, Kelly, and Ernst), 796
Myocardial infarction, ventricular, left, posttraumatic, and rupture in infancy (Price et al.), 656
Myxedema, juvenile, and chronic lymphocytic thyroiditis in uniovular twins (Foley et al.), 201

N

Needle biopsy, percutaneous, of quadriceps muscle: potassium analysis in normal children (Nichols, Hazlewood, and Barnes), 840
Neomycin and ampicillin, double-blind study with, comparison of orally absorbable and nonabsorbable antibiotics in shigellosis (Haltalin et al.), 708
Nephritis, chronic, new cause for old disease (McCrory) (Editor's column), 912
Nephroblastoma and nephrotic syndrome (Lines) (BCLO), 264
Nephrotic syndrome and nephroblastoma (Lines) (BCLO), 264
Nervous system damage, central, and hypoglycemia (Blattner) (Comments), 904
Neuroblastoma, metastatic, and coagulation defects (McMillan, Gaudry, and Holemans), 347
Neurologically handicapped children, Doman-Delacato treatment (Official statement) (Announcements), 750
Neuropsychology, Doman-Delacato theory (Morrison) (Letter), 746
New books received, 141, 427
Niemann-Pick disease: reticuloendotheliosis (Blattner) (Comments), 291
Nitrate therapy, silver, in epidermolysis bullosa hereditaria of newborn (Keller) (BCLO), 854
Nutrition, infant (Laupus) (B. rev.), 146

O

Obstruction, laryngeal, fatal, by iatrogenic subglottic cyst (Wigger and Tang), 815
Osteomyelitis, marcescens, serratia, in infant (Nelms et al.), 222
Otitis media, acute, concentration of ampicillin in exudate from (Coffey) (BCLO), 693
Overweight infants of diabetic mothers, mechanism responsible (Ziegler) (Letter), 908; (Medovy) (Reply), 908
Oxygen, hyperbaric, meperidine, or pentobarbital, effect of pretreatment with, on response to anoxia and resuscitation in newborn rabbits (Campbell, Milligan, and Talner), 518

P

Palate, cleft, polydactyly, and micrognathia (Lowry, Miller, and MacLean) (BCLO), 859
Papaverine, topical, in arteriotomies in infants and children: effect on incidence of thrombosis (Izukawa, Varghese, and Rowe) (BCLO), 853

Paroxysmal tachycardia, fatal, associated with focal myocarditis of Purkinje system in 14-month-old girl (Sevy, Kelly, and Ernst), 796
Patellae, absence, mental retardation, and other malformations with chromosomal mosaicism (Nakagome, Warkany, and Rubinstein) (BCLO), 695
Pathology of mental retardation (Rabe) (B. rev.), 741
Patterns, sleep, in 2-year-old children (Kohler, Coddington, and Agnew), 228
Penile urethral fistula as complication of circumcision (Limaye and Hancock) (BCLO), 105
Pentobarbital, meperidine, or hyperbaric oxygen, effect of pretreatment with, on response to anoxia and resuscitation in newborn rabbits (Campbell, Milligan, and Talner), 518
Percutaneous needle biopsy of quadriceps muscle: potassium analysis in normal children (Nichols, Hazlewood, and Barnes), 840
Pericardial drainage, open, and internal cardiac compression in infant, simplified method (Gengos, Celermajer, and Morgan) (BCLO), 543
Peripheral stimuli, sudden, heart rate changes to, in human during early infancy (Gray and Crowell), 807
Pernicious anemia in second decade of life (Lampkin and Schubert) (BCLO), 387
pH, effect on distribution of bilirubin in peripheral blood, CSF, and fat tissues (Sawitsky, Cheung, and Seifter), 700
Phenylalanine diet, low, termination, mental development, and behavior: phenylketonuria (Hackney et al.), 646
Phenylketonuria: evaluation of therapy and verification of diagnosis (Castells and Brandt), 34
  mental development, behavior, and termination of low phenylalanine diet (Hackney et al.), 646
  some observations on dietary treatment (O'Flynn and Hsia) (BCLO), 260
  variability in manifestations (Pineda) (BCLO), 528
Placentae, abruptio, defibrination syndrome in infant born after (Edson et al.), 342
Placental transfusion (McCue et al.), 15
Plasma-insulin response and tolbutamide tolerance test in hypoglycemia (Drash, Chiumello, and Kenny) (Letter), 557; (Ehrlich and Martin) (Reply), 559
Pneumoniae, Diplococcus, identification (Ross and Putter) (Letter), 560; (Glasgow) (Reply), 561
Poisoning, observations on immediate treatment (Phansalkar and Holt) (BCLO), 683
Polydactyly, micrognathia, and cleft palate (Lowry, Miller, and MacLean) (BCLO), 859
Pores, sweat, diminished, in hypohidrotic ectodermal dysplasia: new method for assessment (Frias and Smith), 606
Potassium analysis in normal children: percutaneous needle biopsy of quadriceps muscle (Nichols, Hazlewood, and Barnes), 840
Prescription vs. physician, dispensing of ipecac by (Bloom and Graubarth) (Letter), 560
Prednisone, successful treatment of juvenile hemangiomas with (Fost and Esterly), 351
Pregnosticon tests, falsely positive (Craven) (BCLO), 106
Project Head Start, health services: guide for project directors and health personnel (B. rev.), 429, 741
Prophylaxis, isoniazid, in tuberculin reactors (Blattner) (Comments), 131
Pseudoxanthoma elasticum and tumoral calcinosis (Najjar et al.), 243
Psychiatric counseling on a pediatric medical ward: controlled evaluation (Minde and Maler), 452
Pulmonary artery stenosis, cutis laxa associated with (Hayden, Talner, and Klaus), 506
  hemorrhage, massive, in newborn infant, aspiration of maternal blood in etiology (Ceballos) (BCLO), 390
  and systemic artery stenoses, multiple, hypertension and mitral incompetence associated with, in Caucasian child (Loggie et al.) (BCLO), 101
Purkinje system, focal myocarditis, fatal paroxysmal tachycardia associated with, in 14-month-old girl (Sevy, Kelly, and Ernst), 796
Pyoderma gangrenosum treated with 6-mercaptopurine and followed by acute leukemia (Maldonado et al.), 409

Q

Quadriceps muscle, percutaneous needle biopsy: potassium analysis in normal children (Nichols, Hazlewood, and Barnes), 840

R

Rash associated with juvenile rheumatoid arthritis (Calabro and Marchesano), 611
Rate, heart, changes to sudden peripheral stimuli in human during early infancy (Gray and Crowell), 807
Reactivity, lymphocytic, in vitro, and skin hypersensitivity to tuberculin in childhood (Matsaniotis et al.), 599
Reactors, tuberculin, isoniazid prophylaxis (Blattner) (Comments), 131
Renal excretion of hydrogen ion in children with idiopathic growth retardation (Edelmann et al.), 443
  genital, and middle ear anomalies, familial syndrome (Winter et al.), 88
Respiratory distress syndrome of prematurely born infants, birth weight, gestational age, and sex as determining factors in incidence (Miller and Futrakul), 628
  infections, acute, etiology: role of viruses and bacteria (Macasaet et al.), 829

Respiratory—Cont'd
tract infections, lower, in children, studies on role of viruses, bacteria, and M. pneumoniae as causes (Loda et al.), 161
Resuscitation and anoxia in newborn rabbits, effect of pretreatment with pentobarbital, meperidine, or hyperbaric oxygen on response to (Campbell, Milligan, and Talner), 518
Retardation, growth, idiopathic, renal excretion of hydrogen ion in children with (Edelmann et al.), 443
mental, absence of patellae, and other malformations with chromosomal mosaicism (Nakagome, Warkany, and Rubinstein) (BCLO), 695
pathology (Rabe) (B. rev.), 741
Reticuloendotheliosis: Niemann-Pick disease (Blattner) (Comments), 291
Rheumatoid arthritis, juvenile, rash associated with (Calabro and Marchesano), 611
Rickettsial and Viral Diseases, Vaccines Against, Conference on (Parrott), 134
Rubella syndrome, congenital, with immunoglobulin disorder (Hancock, Huntley, and Sever), 636
virus vaccine (HPV-77), attenuated, oral administration (Schacher et al.) (BCLO), 255
Rupture and posttraumatic left ventricular myocardial infarction in infancy (Price et al.), 656

S

Sacral agenesis, possible cause in man: exposure to fat solvents (Kučera) (BCLO), 857
Salivary gland tissue, search for reservoir of cytomegalovirus in (ten Bensel and St. Geme), 479
immunoglobulin and albumin: development during newborn period (Selner, Merrill, and Claman) (BCLO), 685
Sclerosing encephalitis, subacute (Périer and Vanderhaeghen) (Letter), 743; (Blattner) (Reply), 743
Serratia marcescens osteomyelitis in an infant (Nelms et al.), 222
Serum bilirubin concentrations and motor development, correlation (Zachau-Christiansen and Vollmond) (Letter), 432
Sex, birth weight, and gestational age as determining factors in incidence of respiratory distress syndrome of prematurely born infants (Miller and Futrakul), 628
-linked thymic epithelial hypoplasia in two siblings (Dooren et al.), 51
Shigellosis, comparison of orally absorbable and nonabsorbable antibiotics in, double-blind study with ampicillin and neomycin (Haltalin et al.), 708
Silver nitrate therapy in epidermolysis bullosa hereditaria of newborn (Keller) (BCLO), 854
Simplex encephalitis, herpes: brain biopsy and treatment with 5-iodo-2′-deoxyuridine (Bellanti et al.), 266
Skin defects, congenital, of newborn infant (Ricketts et al.) (BCLO), 537
hypersensitivity and in vitro lymphocytic reactivity to tuberculin in childhood (Matsaniotis et al.), 599
manifestations of battered-child syndrome (Sussman) (BCLO), 99
Skull fracture, depressed, nonsurgical elevation in infant (Raynor and Parsa) (BCLO), 262
Sleep patterns in 2-year-old children (Kohler, Coddington, and Agnew), 228
Solvents, fat, exposure to: possible cause of sacral agenesis in man (Kučera) (BCLO), 857
Spiking (ctenoids), 14 & 6/second positive, in electroencephalograms of primary school children (Schwartz and Lombroso), 678
Spurious heart disease in athletic children (Harris) (Editor's column), 755
(Marcano and Moss), 664
Stature, shortness, compendium (Aberfeld) (Letter), 295; (Smith) (Reply), 296
Stenoses, multiple, systemic and pulmonary artery, hypertension and mitral incompetence associated with, in Caucasian child (Loggie et al.) (BCLO), 101
Stenosis, pulmonary artery, cutis laxa associated with (Hayden, Talner, and Klaus), 506
Stimuli, peripheral, sudden, heart rate changes to, in human during early infancy (Gray and Crowell), 807
Stone disease, bladder, pediatric; current status of research (Valyasevi and Van Reen), 546
Storage disease, glycogen, studies in; limit dextrinosis: genetic study (Williams and Field), 214
type I, excessive production of uric acid in (Kelley et al.), 488
III (Moses, Levin, and Chayoth) (Letter), 297
Streptococcal infections and epidemic acute glomerulonephritis in South Trinidad (Potter et al.), 871
Strontium balance studies, a low-mineral ash diaper developed for, in infants (Wellman and Kahn) (BCLO), 108
Subglottic cyst, iatrogenic, fatal laryngeal obstruction by (Wigger and Tang), 815
Sulfate method, copper, of screening for anemia in childhood (Okoroma and Charney) (BCLO), 384
Sweat pores, diminished, in hypohidrotic ectodermal dysplasia: new method for assessment (Frias and Smith), 606
Symptoms, common, of disease in children (Smith) (B. rev.), 429
Syndrome, battered-child, skin manifestations (Sussman) (BCLO), 99

Syndrome—Cont'd
of cyanosis, digital clubbing, and hepatic disease in siblings (Silverman et al.), 70
defibrination, in infant born after abruptio placentae (Edson et al.), 342
Down's, hypothyroidism, and diabetes mellitus (Daniels and Simon) (BCLO), 697
familial, of renal, genital, and middle ear anomalies (Winter et al.), 88
Gardner: need for early diagnosis (Duncan, Dohner, and Priest), 497
hemolytic-uremic (Gianantonio et al.), 757
nephrotic, and nephroblastoma (Lines) (BCLO), 264
respiratory distress, of prematurely born infants, birth weight, gestational age, and sex as determining factors in incidence (Miller and Futrakul), 628
rubella, congenital, with immunoglobulin disorder (Hancock, Huntley, and Sever), 636
System damage, nervous, central, and hypoglycemia (Blattner) (Comments), 904
Purkinje, focal myocarditis, fatal paroxysmal tachycardia associated with, in 14-month-old girl (Sevy, Kelly, and Ernst), 796
Systemic and pulmonary artery stenoses, multiple, hypertension and mitral incompetence associated with, in Caucasian child (Loggie et al.) (BCLO), 101

T

Tachycardia, paroxysmal, fatal, associated with focal myocarditis of Purkinje system in 14-month-old girl (Sevy, Kelly, and Ernst), 796
Temperature, oral, measurements in children (Nichols) (BCLO), 253
Test(s), one-way stimulation: lymphocyte studies in congenital thymic dysplasia (Meuwissen et al.), 177
Pregnosticon, falsely positive (Craven) (BCLO), 106
tolerance, tolbutamide, and plasma-insulin response in hypoglycemia (Drash, Chiumello, and Kenny) (Letter), 557; (Ehrlich and Martin) (Reply), 559
Tetanus toxoid, abuse (Steigman) (Editor's column), 753
Therapeutic orphans: editorial comment (Shirkey), 119
Therapy, evaluation, and verification of diagnosis: phenylketonuria (Castells and Brandt), 34
silver nitrate, in epidermolysis bullosa hereditaria of newborn (Keller) (BCLO), 854
total, study of acute lymphocytic leukemia in children (George et al.), 399
Thrombosis, effect on incidence: topical papaverine in arteriotomies in infants and children (Izukawa, Varghese, and Rowe) (BCLO), 853
Thymic dysplasia, congenital, lymphocyte studies: one-way stimulation test (Meuwissen et al.), 177
Thymic—Cont'd
epithelial hypoplasia, sex-linked, in two siblings (Dooren et al.), 51
Thyroid carcinoma, hyperfunctioning, hyperthyroidism attributable to (Sussman, Librik, and Clayton), 208
Thyroiditis, lymphocytic, chronic, and juvenile myxedema in uniovular twins (Foley et al.), 201
Tissue, salivary gland, search for reservoir of cytomegalovirus in (ten Bensel and St. Geme), 479
fat, CSF, and peripheral blood, effect of pH on distribution of bilirubin in (Sawitsky, Cheung, and Seifter), 700
Tolbutamide tolerance test and plasma-insulin response in hypoglycemia (Drash, Chiumello, and Kenny) (Letter), 557; (Ehrlich and Martin) (Reply), 559
Topical papaverine in arteriotomies in infants and children: effect on incidence of thrombosis (Izukawa, Varghese, and Rowe) (BCLO), 853
Toxoid, tetanus, abuse (Steigman) (Editor's column), 753
Tract infections, respiratory, lower, in children, studies on role of viruses, bacteria, and M. pneumoniae as causes (Loda et al.), 161
Transformation, blast, of lymphocytes from newborn human infants (Leikin, Mochir-Fatemi, and Park), 510
Transfusion, placental (McCue et al.), 15
Transplacental infection due to ECHO virus type 22 (Berkovich and Smithwick) (BCLO), 94
Treatment, dietary, of phenylketonuria, some observations on (O'Flynn and Hsia) (BCLO), 260
Trinidad, South, streptococcal infections and epidemic acute glomerulonephritis in (Potter et al.), 871
Trisomy 18, dermatoglyphic observations in patient with (Ross) (BCLO), 862
partial D, and leukemia, chromosomal aberrations in pedigree of infant with: evidence for genetic factor related to leukemogenesis and congenital anomalies (Zuelzer, Thompson, and Mastrangelo), 367
X in three children (Kohn, Winter, and Mellman), 248
Tuberculin in childhood, skin hypersensitivity and in vitro lymphocytic reactivity to (Matsaniotis et al.), 599
reactors, isoniazid prophylaxis (Blattner) (Comments), 131
Tumor, Wilms', in bone marrow aspirate (O'Neill and Pinkel) (BCLO), 396
Tumoral calcinosis and pseudoxanthoma elasticum (Najjar et al.), 243
Tyrosine in fibrocystic disease (Zack et al.) (BCLO), 692
Tyrosinosis, long-term dietary treatment (Aronsson et al.), 620

U

Umbilical artery, single (Harris and Van Leeuwen) (BCLO), 98
Uremic, hemolytic-, syndrome (Gianantonio et al.), 757
Urethral fistula, penile, as complication of circumcision (Limaye and Hancock) (BCLO), 105
Uric acid, excessive production in type I glycogen storage disease (Kelley et al.), 488
metabolism and cerebral function, effects of azathioprine in disorder (Nyhan et al.), 111

V

Vaccine(s) Against Viral and Ricketsial Diseases, Conference on (Parrott), 134
(HPV-77) attenuated rubella virus, oral administration (Schacher et al.) (BCLO), 255
killed, eleven cases in children previously inoculated with: atypical exanthem following exposure to natural measles (Nader, Horowitz, and Rousseau), 22
mumps, virus, live, field evaluation (Sugg et al.), 461
Ventricular myocardial infarction, left, posttraumatic, and rupture in infancy (Price et al.), 656
Viral and Rickettsial Diseases, Vaccine Against, Conference on (Parrott), 134
Virus(es), bacteria, and M. pneumoniae as causes of lower respiratory tract infections in children, studies on role (Loda et al.), 161
role: etiology of acute respiratory infections (Macasaet et al.), 829
ECHO, type 22, transplacental infection (Berkovich and Smithwick) (BCLO), 94
isolation, during incubation period of mumps infection (Ennis and Jackson) (BCLO), 536
mumps vaccine, live, field evaluation (Sugg et al.), 461
two, fatal illness associated with: intermediate adenovirus type (21-16) and influenza A_2 (Crandell et al.), 467
vaccine (HPV-77), rubella, attenuated, oral administration (Schacher et al.) (BCLO), 255

W

Weight, birth, gestational age, and sex as determining factors in incidence of respiratory distress syndrome of prematurely born infants (Miller and Futrakul), 628
low-, infants, hemolytic anemia (Lovric et al.) (Letter), 431; (Oski and Barness) (Reply), 431
Wilms' tumor in bone marrow aspirate (O'Neill and Pinkel) (BCLO), 396

*Subject Index**

A

Abdominal distress (*See* Oppenheimer and Avery) (CPC), 143

Abdominal masses, aortography in children with (Brinsfield, Bland, and Sybers), 203

Achieve his best, how to help a child to (Illingworth), 61

Acid base physiology in medicine (Etteldorf) (B. rev.), 640

uric, levels in full-term and low-birth-weight infants (Marks et al.) (BCLO), 609

urine, to creatinine ratio—screening test for inherited disorders of purine metabolism (Kaufman, Greene, and Seegmiller), 583

Aciduria, uric, X-linked, with neurological disease and self-mutilation: diagnostic test for enzyme defect (Fujimoto, Greene, and Seegmiller) (BCLO), 920

Addison's disease and congenital adrenal virilism, comparative effect of 6α-fluoroprednisolone, 6α-methylprednisolone, and hydrocortisone on linear growth of children with (Laron and Pertzelan), 774

Adenovirus type 11: hemorrhagic cystitis (Blattner) (Comments), 280

Adrenalectomy for Cushing's syndrome in infancy, McCune-Albright's syndrome following (Aarskog and Tveteraas), 89

Adrenal hyperplasia, congenital, treated with hydrocortisone, statural growth in (Rappaport, Cornu, and Royer), 760

updating of treatment (Migeon) (Editor's column), 805

virilism, congenital, and Addison's disease, comparative effect of 6α-fluoroprednisolone, 6α-methylprednisolone, and hydrocortisone on linear growth of children with (Laron and Pertzelan), 774

Afibrinogenemia and thrombocytopenia, splenic hemangioma with (Thatcher, Clatanoff, and Stiehm), 345

Agents, chelating, use in treatment of acute and chronic lead intoxication in childhood (Chisolm), 1

Age, parental, sex ratio, and survival, studies on: trisomy 13 (D_1) syndrome (Magenis, Hecht, and Milham), 222

Agglutination test, slide, positive, incidence of, for mononucleosis in children (Collins and Louro) (BCLO), 745

Allergic reactions to tetanus toxoid (Perez-Martin) (Letter), 648; (Steigman) (Reply), 648

Allergy, nature of (Rhyne and Frank) (Editor's column), 459

status and perspective (Peterson), 436

Alymphoplasia, thymic, associated with hemolytic-uremic syndrome (Dubilier, Chadwick, and Leddy), 714

Ambulatory pediatrics (Garfunkel) (B. rev.), 795

Ampicillin therapy for shigellosis, comparison of intramuscular and oral (Haltalin et al.), 617

Anaphylactoid purpura progressing to gangrene and its treatment with heparin (Kisker, Glueck, and Kauder) (BCLO), 748

Anemia, sickle cell, and nephrotic syndrome (Barnett and Bernstein) (CPC), 936

failure of promazine HCl to avert painful episodes (Oski, Call, and Lessen), 265

Anesthetics and newborn infants (Goodlin) (Letter), 455; (Campbell, Milligan, and Talner) (Reply), 455

Aneuploidy, latent in father and grandfather of doubly aneuploid child: mongolism in child with 48 chromosomes (Townes), 97

Announcements, 154, 302, 457, 650, 803, 955

Antibiotics, effect of, on Guthrie test given to phenylketonuric patients (Fisch et al.), 685

Antibodies, toxocara, in eosinophilic cystitis (Perlmutter, Edlow, and Kevy), 340

Antibody test, IgM, specific, in neonatal congenital syphilis (Scotti and Logan) (BCLO), 242

titers, measles, serum, in patients with subacute sclerosing panencephalitis, compared with parents and siblings (Jabbour and Sever) (BCLO), 905

Aortic arch, interruption of, idiopathic hypercalcemia of infancy with (Harris and Nghiem), 84

right-sided, mental deficiency, and facial dysmorphism, familial syndrome (Strong), 882

stenosis, supravalvular, familial (McCue et al.), 889

Aortography in children with abdominal masses (Brinsfield, Bland, and Sybers), 203

Arch, aortic, interruption of, idiopathic hypercalcemia of infancy with (Harris and Nghiem), 84

Artery stenoses, pulmonary, peripheral, course of, in children (Hartmann, Elliott, and Goldring), 212

Arthritis, rheumatoid, juvenile, with and without corticosteroid therapy, urinary hydroxyproline excretion in patients with (Smith, Ansell, and Bywaters), 875

*July, pp. 1-162; August, pp. 163-308; September, pp. 309-498; October, pp. 499-652; November, pp. 653-808; December, pp. 809-964.

Aseptic meningitic syndrome with cauda equina epidermoid tumor (Cantu and Wright) (BCLO), 114
Aspergillus endocarditis, disseminated intravascular coagulation associated with (Doughten and Pearson), 576
Aspirin, sustained-release, in children (Gotoff, McCue, and Wendell), 127
Asymmetric manifestation of apparently new syndrome: depressed and pitted skin, facial tumors, syndactyly, and other congenital defects (Hook) (BCLO), 913
Atresia, familial jejunal: three cases in one family (Mishalany and Najjar) (BCLO), 753
Atrial flutter in infancy, clinical forms (Rodriguez-Coronel, Sueblingvong, and Hastreiter), 69
  septostomy, balloon, palliative, for total anomalous pulmonary venous connection in infancy (Serratto et al.), 734
Autonomic dysfunction in child: pupillotonia, hyporeflexia, and segmental hypohidrosis (Esterly et al.), 852

B

Bacterial etiology of superficial pyoderma in Lebanon (Dajani, Farah, and Kurban), 431
Balloon atrial septostomy, palliative, for total anomalous pulmonary venous connection in infancy (Serratto et al.), 734
Bart's hemoglobin in northern Thailand, hydrops fetalis associated with (Thumasathit et al.), 132
Birth-weight, low–, and full-term infants, uric acid levels in (Marks et al.) (BCLO), 609
Bone, hereditary dysplasia of, with kyphoscoliosis, contractures, and abnormally shaped ears (Epstein et al.), 379
Book reviews, 150, 292, 638, 795, 951
Bottle propping for infant feeding (Beauregard) (Letter), 455
Brain-damaged child, persistent dystonia in, after ingestion of phenothiazine (Angle and McIntire), 124
Brain, joints, and palate, dysmorphogenesis: new dominantly inherited syndrome (Aase and Smith) (BCLO), 606
Breasts, congenital absence (Tawil and Najjar) (BCLO), 751
Bronchobiliary fistula, congenital (Weitzman et al.), 329

C

Carcinoma, thyroid (Miller) (Letter), 645; (Sussman, Librik, and Clayton) (Reply), 646
Cardiac malformation (Oppenheimer and Avery) (CPC), 143
Cardiofacial syndrome, additional cases (Cayler) (Letter), 953
Cardiomyopathy, infantile: previously unrecognized type with histiocytoid reactions (Reid, Hajdu, and Attah), 335
Cardiomyopathy—Cont'd
  possible development in patient with ventricular septal defect (Goldbarg and Liebman) (BCLO), 411
Cardiopulmonary disease, advanced, congenital cutis laxa with (Hajjar and Joyner) (BCLO), 116
Cauda equina epidermoid tumor, aseptic meningitic syndrome with (Cantu and Wright) (BCLO), 114
Cell, sickle, anemia, failure of promazine HCl to avert painful episodes (Oski, Call, and Lessen), 265
Cellular aspects of developmental pathology (Naeye) (B. rev.), 294
Cephaloridine: clinical and laboratory studies in children (Azimi and Cramblett), 255
Cephalothin, placental transfer (Morrow, Palmisano, and Cassady), 262
C-group chromosome, abnormal, in child with severe growth retardation (Holmes and Atkins) (BCLO), 119
Chelating agents in treatment of acute and chronic lead intoxication in childhood, use (Chisolm), 1
Chemotherapy and radiotherapy, concurrent, treatment of Ewing's sarcoma with (Hustu et al.) (BCLO), 249
Childcraft (Beatty) (B. rev.), 638
Chlorides, sweat, elevated, and hypothyroidism (Madoff) (BCLO), 244
Choriocarcinoma, infantile: characteristic syndrome (Witzleben and Bruninga), 374
Chromoblastomycosis versus sporotrichosis (Hughes) (BCLO), 253
Chromosome(s), C-group, abnormal, in child with severe growth retardation (Holmes and Atkins) (BCLO), 119
  48, mongolism in a child with: latent aneuploidy in father and grandfather of doubly aneuploid child (Townes), 97
Clinical forms of atrial flutter in infancy (Rodriguez-Coronel, Sueblingvong, and Hastreiter), 69
Clusters, leukemia, significance of (Glass, Hill, and Miller), 101
Coagulation, intravascular, disseminated, in newborn with Down's syndrome (Pochedly and Ente) (Letter), 298
  associated with Aspergillus endocarditis (Doughten and Pearson), 576
Coli, Escherichia, atypical, associated with cystic fibrosis of pancreas (Kilbourn, Grach, and Campbell) (BCLO), 408
Congenital absence of breasts (Tawil and Najjar) (BCLO), 751
  adrenal hyperplasia treated with hydrocortisone, statural growth in (Rappaport, Cornu, and Royer), 760
    updating of treatment (Migeon) (Editor's column), 805
  virilism and Addison's disease, comparative effect of 6α-fluoroprednisolone, 6α-methylprednisolone, and hydrocortisone on the linear growth of children with (Laron and Pertzelan), 774

Congenital—Cont'd
bronchobiliary fistula (Weitzman et al.), 329
cutis laxa with advanced cardiopulmonary disease (Hajjar and Joyner) (BCLO), 116
defects, other, depressed and pitted skin, facial tumors, and syndactyly: asymmetric manifestations of apparently new syndrome (Hook) (BCLO), 913
heart disease in infant with Smith-Lemli-Opitz syndrome (Park et al.), 896
two siblings, unilateral limb and skin deformities with: lethal syndrome (Falek et al.) (BCLO), 910
mental development in (Whitaker) (Letter), 151; (Linde, Rasof, and Dunn) (Reply), 151
necropsy study in, myocardial infarcts in infants and children (Franciosi and Blanc), 309
and scoliosis (Luke and McDonnell), 725
infection, cytomegaloviremia following (Lang and Noren), 812
rubella, immune competence in: lymphocyte transformation, delayed hypersensitivity, and response to vaccination (White et al.), 229
indirect inguinal hernia in (Hardy and Sever) (BCLO), 416
Convulsions, febrile (Baird) (B. rev.), 295
Corticoid administration, low-dosage, long-acting, pituitary growth hormone suppression with (Stempfel et al.), 767
Corticosteroid therapy, nephrosis and thrombosis (Lieberman et al.), 320
with and without, urinary hydroxyproline excretion in patients with juvenile rheumatoid arthritis (Smith, Ansell, and Bywaters), 875
Coxsackie viremia (Rosenberg) (CPC), 283
virus infection, myopericarditis associated with (Blattner) (Comments), 932
Creatine kinase, serum, in malnutrition (Balmer and Rutishauser), 783
Cutis laxa, congenital, with advanced cardiopulmonary disease (Hajjar and Joyner) (BCLO), 116
Cyclophosphamide therapy for nephrosis (Grunberg) (Letter), 641; (Etteldorf) (Reply), 641; (West) (Reply), 641
treatment of Ewing's sarcoma with concurrent radiotherapy and chemotherapy (Hustu et al.) (BCLO), 249
and vincristine, survival of children with neuroblastoma treated with combination chemotherapy (Pinkel et al.), 928
Cystic disease, medullary, and familial juvenile nephronophthisis (Pedreira, Marmer, and Bergstrom), 77
fibrosis, hematologic and serologic studies in (Caplan and Gross), 540
of pancreas, atypical Escherichia coli associated with (Kilbourn, Grach, and Campbell) (BCLO), 408
Cystic fibrosis—Cont'd
patients with, immunological studies of submaxillary saliva from normal children and from (Gugler et al.), 548
plasma tyrosine levels in patients with (Braddock and Barbero) (Letter), 646; (Zack et al.) (Reply), 647
Cystitis, eosinophilic, toxocara antibodies in (Perlmutter, Edlow and Kevy), 340
hemorrhagic: adenovirus type 11 (Blattner) (Comments), 280
Cytomegaloviremia following congenital infection (Lang and Noren), 812
Cytomegalovirus(es) in stored urine specimens (Feldman) (BCLO), 611
infection, screening of newborn infants for (Starr and Gold), 820

D

Death in infancy, sudden unexpected: statistical analysis of certain socioeconomic factors (Valdés-Dapena et al.), 387
Deformities, limb and skin, unilateral, with congenital heart disease in two siblings: lethal syndrome (Falek et al.) (BCLO), 910
Dermal ridge patterns: technique for their study in human fetuses (Miller) (BCLO), 614
Development, mental, in congenital heart disease (Whitaker) (Letter), 151; (Linde, Rasof, and Dunn) (Reply), 151
physical and psychological, of children with early failure to thrive (Glaser et al.), 690
Dextrinosis, limit (Chayoth and Moses) (Letter), 456
Diabetes insipidus and diabetes mellitus in six-year-old girl (Najjar and Mahmud) (BCLO), 251
mellitus, Down's syndrome, and hypothyroidism (Litman) (Letter), 798
Diaphragmatic flutter with electromyographic study (Rigatto and Correa) (BCLO), 757
Diarrhea, unremitting, in infancy (Gribetz and Strauss) (CPC), 629
Diazepam, intravenous, treatment of prolonged seizure activity with (Bailey and Fenichel), 923
Dietary treatment of phenylketonuria, some observations on (Steisel) (Letter), 798; (O'Flynn and Hsia) (Reply), 800
Diphenylhydantoin in childhood, neurologic hazards (Patel and Crichton), 676
Disease(s), acute conditions, incidence and associated disability: United States, July 1966–June 1967 (B. rev.), 796
Addison's, and congenital adrenal virilism, comparative effect of 6α-fluoroprednisolone, 6α-methylprednisolone, and hydrocortisone on linear growth of children with (Laron and Pertzelan), 774

Disease(s)—Cont'd
cardiopulmonary, advanced, congenital cutis laxa with (Hajjar and Joyner) (BCLO), 116
Gaucher's: abnormalities in immunoglobulins (Blattner) (Comments), 626
heart, congenital, in infant with Smith-Lemli-Optiz syndrome (Park et al.), 896
in two siblings, unilateral limb and skin deformities with: lethal syndrome (Falek et al.) (BCLO), 910
mental development in (Whitaker) (Letter), 151; (Linde, Rasof, and Dunn) (Reply), 151
necropsy study in, myocardial infarcts in infants and children (Franciosi and Blanc), 309
and scoliosis (Luke and McDonnell), 725
in infants, children and adolescents (Black) (B. rev.), 952
hepatic, reversibility of erythrocyte lipid abnormalities in (Neerhout), 364
Hirschsprung's, with enterocolitis, portal vein gas complicating (Verby et al.) (BCLO), 599
medullary cystic, and familial juvenile nephronophthisis (Pedreira, Marmer, and Bergstrom), 77
neurological, and self-mutilation, X-linked uric aciduria with: diagnostic test for enzyme defect (Fujimoto, Greene, and Seegmiller) (BCLO), 920
viral, control (Meyer), 653
von Willebrand's: comparative study of diagnostic tests (Abildgaard et al.), 355
Disc, lumbar, protruded, in 9-year-old boy (MacGee) (BCLO), 418
Down's syndrome, disseminated intravascular coagulation in newborn with (Pochedly and Ente), 298
and goiter (Ruvalcaba, Ferrier, and Thuline) (Letter), 953
hypothyroidism, and diabetes mellitus (Litman) (Letter), 798
and leukemia in family (Ebbin et al.) (BCLO), 917
Drinking, water, compulsive—primary polydipsia (Stevko, Balsley, and Segar), 845
Drug resistance, transferable: enteric organisms (Blattner) (Comments), 139
Dyslexic child, waysiders—new approach to reading and (Baird) (B. rev.), 295
Dysmorphism, facial, mental deficiency, and right-sided aortic arch, familial syndrome (Strong), 882
Dysmorphogenesis of joints, brain, and palate: new dominantly inherited syndrome (Aase and Smith) (BCLO), 606
Dysplasia, ectodermal, hereditary (Blattner) (Comments), 444
hereditary, of bone with kyphoscoliosis, contractures, and abnormally shaped ears (Epstein et al.), 379
Dysraphism, spinal, occult (Anderson), 163
Dystonia, persistent, in brain-damaged child after ingestion of phenothiazine (Angle and McIntire), 124

E

Ears, abnormally shaped, contractures, and kyphoscoliosis, hereditary dysplasia of bone with (Epstein et al.), 379
Ectodermal dysplasia, hereditary (Blattner) (Comments), 444
Educational Foundation, The Journal of Pediatrics, 809
Effusions, massive chronic subdural, microcephaly associated with (Cadman, Lee, and Tucker) (BCLO), 246
Electromyographic study, diaphragmatic flutter with (Rigatto and Correa) (BCLO), 757
Endocarditis, Aspergillus, disseminated intravascular coagulation associated with (Doughten and Pearson), 576
Enteric organisms: transferable drug resistance (Blattner) (Comments), 139
Enterocolitis, portal vein gas complicating Hirschsprung's disease with (Verby et al.) (BCLO), 599
Enzyme defect, diagnostic test for: X-linked uric aciduria with neurological disease and self-mutilation (Fujimoto, Greene, and Seegmiller) (BCLO), 920
Eosinophilic cystitis, toxocara antibodies in (Perlmutter, Edlow and Kevy), 340
Epidemiology of proteinuria (Wagner et al.), 825
Epidural hematoma, spinal, spontaneous, of childhood (Posnikoff), 178
Epidermoid tumor, equina, cauda, aseptic meningitic syndrome with (Cantu and Wright) (BCLO), 114
Equina epidermoid tumor, cauda, aseptic meningitic syndrome with (Cantu and Wright) (BCLO), 114
Erythrocyte lipid abnormalities, reversibility of, in hepatic disease (Neerhout), 364
Escherichia coli, atypical, associated with cystic fibrosis of pancreas (Kilbourn, Grach, and Campbell) (BCLO), 408
Ewing's sarcoma, treatment with concurrent radiotherapy and chemotherapy (Hustu et al.) (BCLO), 249
Exocrine pancreatic function in infants and children, quantitative assessment (Hadorn et al.), 39

F

Facial dysmorphism, mental deficiency, and right-sided aortic arch, familial syndrome (Strong), 882
Failure to thrive, early, physical and psychological development of children with (Glaser et al.), 690
Familial jejunal atresia: three cases in one family (Mishalany and Najjar) (BCLO), 753

Familial—Cont'd
juvenile nephronophthisis and medullary cystic disease (Pedreira, Marmer, and Bergstrom), 77
neurovisceral lipidosis (Lake) (Letter), 152; (Lagunoff) (Reply), 153
supravalvular aortic stenosis (McCue et al.), 889
syndrome of right-sided aortic arch, mental deficiency, and facial dysmorphism (Strong), 882
Febrile convulsions (Baird) (B. rev.), 295
Feeding, infant, bottle propping for (Beauregard) (Letter), 455
Fetalis, hydrops, associated with Bart's hemoglobin in northern Thailand (Thumasathit et al.), 132
Fever, Rocky Mountain spotted (Jaques, Kniker, and Gerald) (CPC), 448
Fibrosis, cystic, hematologic and serologic studies in (Caplan and Gross), 540
of pancreas, atypical Escherichia coli associated with (Kilbourn, Grach, and Campbell) (BCLO), 408
patients with, immunological studies of submaxillary saliva from, and from normal children (Gugler et al.), 548
plasma tyrosine levels in patients with (Braddock and Barbero) (Letter), 646; (Zack et al.) (Reply), 647
Fistula, bronchobiliary, congenital (Weitzman et al.), 329
Flammeus, nevus, of forehead (Selmanowitz) (BCLO), 755
6α-fluoroprednisolone, 6α-methylprednisolone, and hydrocortisone, comparative effect of, on linear growth of children with congenital adrenal virilism and Addison's disease (Laron and Pertzelan), 774
Flutter, atrial, in infancy, clinical forms (Rodriguez-Coronel, Sueblingvong, and Hastreiter), 69
diaphragmatic, with electromyographic study (Rigatto and Correa) (BCLO), 757
Focal glomerulonephritis in children (West, McAdams, and Northway), 184
Forehead, nevus flammeus of (Selmanowitz) (BCLO), 755
Full-term and low–birth-weight infants, uric acid levels in (Marks et al.) (BCLO), 609
Function, exocrine pancreatic, in infants and children, quantitative assessment (Hadorn et al.), 39

G

Gangrene, anaphylactoid purpura progressing to, and its treatment with heparin (Collins and Louro) (BCLO), 748
Gas, vein, portal, complicating Hirschsprung's disease with enterocolitis (Verby et al.) (BCLO), 599
Gaucher's disease: abnormalities in immunoglobulins (Blattner) (Comments), 626
Glomerulonephritis, focal, in children (West, McAdams, and Northway), 184
Glucose-6-phosphate dehydrogenase deficiency, test for (Beutler) (Letter), 297; (Hsia) (Reply), 297
Goiter and Down's syndrome (Ruvalcaba, Ferrier, and Thuline) (Letter), 953
Growth and development, implications for: maternal phenylketonuria (Frankenburg et al.), 560
hormone suppression, pituitary, with low-dosage, long-acting corticoid administration (Stempfel et al.), 767
linear, of children with congenital adrenal virilism and Addison's disease, comparative effect of 6α-fluóroprednisolone, 6α-methylprednisolone, and hydrocortisone on (Laron and Pertzelan), 774
retardation, severe, abnormal C-group chromosome in child with (Holmes and Atkins) (BCLO), 119
statural, in congenital adrenal hyperplasia treated with hydrocortisone (Rappaport, Cornu, and Royer), 760
Guthrie test given to phenylketonuric patients, effect of antibiotics on (Fisch et al.), 685

H

Head size, abnormally small, and intellect in children (Pryor and Thelander), 593
Heart disease in infants, children and adolescents (Black) (B. rev.), 952
congenital, necropsy study in: myocardial infarcts in infants and children (Franciosi and Blanc), 309
with Smith-Lemli-Opitz syndrome (Park et al.), 896
in two siblings, unilateral limb and skin deformities with: lethal syndrome (Falek et al.) (BCLO), 910
mental development in (Whitaker) (Letter), 151; (Linde, Rasof, and Dunn) (Reply), 151
and scoliosis (Luke and McDonnell), 725
Hemangioma, splenic, with thrombocytopenia and afibrinogenemia (Thatcher, Clatanoff, and Stiehm), 345
Hematologic and serologic studies in cystic fibrosis (Caplan and Gross), 540
values in infancy, relationship between milk protein and iron content on (Gross), 521
Hematoma, spontaneous spinal epidural, of childhood (Posnikoff), 178
Hemodialysis, extended, in children with chronic renal failure (Fine et al.), 706
Hemoglobin, Bart's, hydrops fetalis associated with, in northern Thailand (Thumasathit et al.), 132
Hemolytic-uremic syndrome, thymic alymphoplasia associated with (Dubilier, Chadwick, and Leddy), 714
Hemorrhagic cystitis: adenovirus type 11 (Blattner) (Comments), 280
pancreatitis, acute, and other visceral changes associated with encephalopathy (Stover, Wanglee, and Kennedy), 235

Heparin, anaphylactoid purpura progressing to gangrene and its treatment with (Collins and Louro) (BCLO), 748
therapy for, fatal outcome following, disseminated intravascular coagulation associated with Aspergillus endocarditis (Doughten and Pearson), 576
Hepatic disease, reversibility of erythrocyte lipid abnormalities in (Neerhout), 364
Hereditary ectodermal dysplasia (Blattner) (Comments), 444
Hernia, inguinal, indirect, in congenital rubella (Hardy and Sever) (BCLO), 416
Hirschsprung's disease with enterocolitis, portal vein gas complicating (Verby et al.) (BCLO), 599
Histiocytoid reactions, previously unrecognized type with: infantile cardiomyopathy (Reid, Hajdu, and Attah), 335
Holmes-Adie syndrome: pupillotonia, hyporeflexia, and segmental hypohidrosis: autonomic dysfunction in child (Esterly et al.), 852
Homosexuality: growing up straight (Simmons) (B. rev.), 951
Hormone suppression, growth, pituitary, with low-dosage, long-acting corticoid administration (Stempfel et al.), 767
Hurler's syndrome, commonly used tests in detection (Carter, Wan, and Carpenter), 217
Hydrocortisone, 6α-fluoroprednisolone, and 6α-methylprednisolone, comparative effect of, on linear growth of children with congenital adrenal virilism and Addison's disease (Laron and Pertzelan), 774
statural growth in congenital adrenal hyperplasia treated with (Rappaport, Cornu, and Royer), 760
Hydrops fetalis associated with Bart's hemoglobin in northern Thailand (Thumasathit et al.), 132
Hydroxyproline excretion, urinary, in patients with juvenile rheumatoid arthritis, with and without corticosteroid therapy (Smith, Ansell, and Bywaters), 875
Hypercalcemia, idiopathic, of infancy, syndrome of, mitral insufficiency in association with (Vazquez, Zuberbuhler, and Kenny) (BCLO), 907
with interruption of aortic arch (Harris and Nghiem), 84
Hyperplasia, congenital adrenal, treated with hydrocortisone, statural growth in (Rappaport, Cornu, and Royer), 760
updating of treatment (Migeon) (Editor's column), 805
Hyperprolinemia and hyperprolinuria in thalassemia (Liakakos, Karpouzas, and Agathopoulos) (BCLO), 419
Hyperprolinuria and hyperprolinemia in thalassemia (Liakakos, Karpouzas, and Agathopoulos) (BCLO), 419
Hypohidrosis, segmental, pupillotonia, and hyporeflexia: autonomic dysfunction in child (Esterly et al.), 852
Hyporeflexia, pupillotonia, and segmental hypohidrosis: autonomic dysfunction in child (Esterly et al.), 852
Hypothyroidism, diabetes mellitus, and Down's syndrome (Litman) (Letter), 798
Hurler's syndrome, biochemical and ultrastructural studies in (Loeb et al.), 860

I

Idiopathic hypercalcemia of infancy with interruption of aortic arch (Harris and Nghiem), 84
syndrome of, mitral insufficiency in association with (Vazquez, Zuberbuhler, and Kenny) (BCLO), 907
IgA deficiency and susceptibility to infection (Rosenberg) (Letter), 642; (Buser) (Reply), 643; (West) (Editorial comment), 644
IgM antibody test, specific, in neonatal congenital syphilis (Scotti and Logan) (BCLO), 242
Illegitimacy, trends in (B. rev.), 150
Immune competence in congenital rubella: lymphocyte transformation, delayed hypersensitivity, and response to vaccination (White et al.), 229
Immunization in developing regions: editorial comment (Cook and Jelliffe), 270
polio, oral, of newborn infant; possible method for overcoming interference by ingested antibodies (Katz and Plotkin), 267
Immunoglobulins, abnormalities in: Gaucher's disease (Blattner) (Comments), 626
Immunologic abnormalities, other, trisomy D_1 syndrome, and leukemia (Hecht) (Letter), 296; (Zuelzer) (Reply), 296
studies of submaxillary saliva from patients with cystic fibrosis and from normal children (Gugler et al.), 548
Infarction, myocardial, in newborn infant (Arthur et al.) (BCLO), 110
in infants and children, necropsy study in congenital heart disease (Franciosi and Blanc), 309
Infection, congenital, cytomegaloviremia following (Lang and Noren), 812
Coxsackie virus, myopericarditis associated with (Blattner) (Comments), 932
cytomegalovirus, screening of newborn infants for (Starr and Gold), 820
IgA deficiency and susceptibility to (Rosenberg) (Letter), 642; (Buser) (Reply), 643; (West) (Editorial comment), 644
Inguinal hernia, indirect, in congenital rubella (Hardy and Sever) (BCLO), 416
Insipidus, diabetes, and diabetes mellitus in six-year-old girl (Najjar and Mahmud) (BCLO), 251
Intellect and abnormally small head size in children (Pryor and Thelander), 593

Intratracheal intubation, direct digital, for neonatal resuscitation (Woody and Woody) (BCLO), 903
Intravascular coagulation, disseminated, associated with Aspergillus endocarditis (Doughten and Pearson), 576
in newborn with Down's syndrome (Pochedly and Ente) (Letter), 298
Intubation, intratracheal, digital, direct, for neonatal resuscitation (Woody and Woody) (BCLO), 903
Iron and protein content, milk, relationship between, on hematologic values in infancy (Gross), 521
Isoniazid prophylaxis (Yerushalmy) (Letter), 299; (Blattner) (Reply), 301; (Nelson) (Editor's note), 301

J

Jejunal atresia, familial: three cases in one family (Mishalany and Najjar) (BCLO), 753
Joints, brain, and palate, dysmorphogenesis: new dominantly inherited syndrome (Aase and Smith) (BCLO), 606
Juvenile nephronophthisis, familial, and medullary cystic disease (Pedreira, Marmer, and Bergstrom), 77

K

Kinase, creatine, serum, in malnutrition (Balmer and Rutishauser), 783

L

La Leche League International, salute to (Hill) (Editor's column), 161
Latent aneuploidy in father and grandfather of doubly aneuploid child: mongolism in child with 48 chromosomes (Townes), 97
Laxa, cutis, congenital, with advanced cardiopulmonary disease (Hajjar and Joyner) (BCLO), 116
Lead intoxication, acute and chronic, use of chelating agents in treatment in childhood (Chisolm), 1
poisoning in childhood—comprehensive management and prevention (Chisolm and Kaplan), 942
Leukemia, acute, in children, combination of vincristine and prednisone in therapy (Sutow et al.), 426
induction of remission with prednisone and intravenous methotrexate in (Brubaker et al.), 623
clusters, significance of (Glass, Hill, and Miller), 101
and Down's syndrome in family (Ebbin et al.) (BCLO), 917
myelocytic, chronic (Lane) (Letter), 298; (Holton and Johnson) (Reply), 299
trisomy D_1 syndrome, and other immunologic abnormalities (Hecht) (Letter), 296; (Zuelzer) (Reply), 296
Limb and skin deformities, unilateral, with congenital heart disease in two siblings: lethal syndrome (Falek et al.) (BCLO), 910
Lipid abnormalities, erythrocyte, reversibility of, in hepatic disease (Neerhout), 364
Lipidosis, neurovisceral, familial (Lake) (Letter), 152; (Langunoff) (Reply), 153
Lumbar disc, protruded, in 9-year-old boy (MacGee) (BCLO), 418
Lymphocyte transformation, delayed hypersensitivity, and response to vaccination: immune competence in congenital rubella (White et al.), 229

M

McCune-Albright's syndrome following adrenalectomy for Cushing's syndrome in infancy (Aarskog and Tveteraas), 89
Malnutrition, serum creatine kinase in (Balmer and Rutishauser), 783
Masses, abdominal, aortography in children with (Brinsfield, Bland, and Sybers), 203
Measles antibody titers, serum, in patients with subacute sclerosing panencephalitis, compared with parents and siblings (Jabbour and Sever) (BCLO), 905
Medullary cystic disease and familial juvenile nephronophthisis (Pedreira, Marmer, and Bergstrom), 77
Mellitus, diabetes, and diabetes insipidus in six-year-old girl (Najjar and Mahmud) (BCLO), 251
Down's syndrome, and hypothyroidism (Litman) (Letter), 798
Meningitic syndrome, aseptic, with cauda equina epidermoid tumor (Cantu and Wright) (BCLO), 114
Mental deficiency, right-sided aortic arch, and facial dysmorphism, familial syndrome (Strong), 882
development in congenital heart disease (Whitaker) (Letter), 151; (Linde, Rasof, and Dunn) (Reply), 151
Mentally retarded child, toward greater understanding of parents of (Miller), 699
Metabolism, purine, inherited disorders, screening test for—urine uric acid to creatinine ratio (Kaufman, Greene, and Seegmiller), 583
Methotrexate, intravenous, and prednisone, induction of remission in acute leukemia with (Brubaker et al.), 623
Methyl-3-chromone, acute renal tubular dysfunction following intoxication with (Otten and Vis), 422
6α-methylprednisolone, 6α-fluoroprednisolone, and hydrocortisone, comparative effect of, on linear growth of children with congenital adrenal virilism and Addison's disease (Laron and Pertzelan), 774
Microcephaly associated with massive chronic subdural effusions (Cadman, Lee, and Tucker) (BCLO), 246

Milk protein and iron content, relationship between, on hematologic values in infancy (Gross), 521
Mitral insufficiency in association with syndrome of idiopathic hypercalcemia of infancy (Vazquez, Zuberbuhler, and Kenny) (BCLO), 907
Mongolism in child with 48 chromosomes, latent aneuploidy in father and grandfather of doubly aneuploid child (Townes), 97
Mononucleosis in children, incidence of positive slide agglutination tests for (Collins and Louro) (BCLO), 745
Myelocytic leukemia, chronic (Lane) (Letter), 298; (Holton and Johnson) (Reply), 299
Myocardial infarcts in infants and children, necropsy study in congenital heart disease (Franciosi and Blanc), 309
infarction in newborn infant (Arthur et al.) (BCLO), 110
Myopericarditis associated with Coxsackie virus infection (Blattner) (Comments), 932

N

Nephrology, volumes I and II (Fleisher) (B. rev.), 638
Nephronophthisis, juvenile, familial, and medullary cystic disease (Pedreira, Marmer, and Bergstrom), 77
Nephrosis, cyclophosphamide therapy for (Grunberg) (Letter), 641; (Etteldorf) (Reply), 641; (West) (Reply), 641
thrombosis, and corticosteroid therapy (Lieberman et al.), 320
Nephrotic syndrome and sickle cell anemia (Barnett and Bernstein) (CPC), 936
Neuroblastoma treated with combination chemotherapy, survival of children with (Pinkel et al.), 928
Neurological disease and self-mutilation, X-linked uric aciduria with: diagnostic test for enzyme defect (Fujimoto, Greene, and Seegmiller) (BCLO), 920
sequelae of poisoning in children (Angle, McIntire, and Meile), 531
Neurovisceral lipidosis, familial (Lake) (Letter), 152; (Lagunoff) (Reply), 153
Nevus flammeus of forehead (Selmanowitz) (BCLO), 755
Nonstreptococcal pharyngitis (Moffet, Siegel, and Doyle), 51

O

Ocular abnormalities, calcification of cartilage, and failure to thrive, syndrome (Punnett and Kirkpatrick) (BCLO), 602
Organisms, enteric: transferable drug resistance (Blattner) (Comments), 139

P

Palate, joints, and brain, dysmorphogenesis: new dominantly inherited syndrome (Aase and Smith) (BCLO), 606
Pancreas, cystic fibrosis of, atypical Escherichia coli associated with (Kilbourn, Grach, and Campbell) (BCLO), 408
Pancreatic function, exocrine, in infants and children, quantitative assessment (Hadorn et al.), 39
Pancreatitis, hemorrhagic, acute, and other visceral changes associated with encephalopathy (Stover, Wanglee, and Kennedy), 235
Panencephalitis, sclerosing, subacute, serum measles antibody titers in patients with, compared with parents and siblings (Jabbour and Sever) (BCLO), 905
Parental age, sex ratio, and survival: trisomy 13 (D_1) syndrome (Magenis, Hecht, and Milham), 222
Pathology, clinical, of infancy (Etteldorf) (B. rev.), 640
of infancy and childhood (Fetterman) (B. rev.), 639
Patterns, dermal ridge: technique for their study in human fetuses (Miller) (BCLO), 614
Pediatrics, general: study of practice in mid-1960's (Hessel and Haggerty), 271
Penicillin therapy, oral, of streptococcal pharyngitis, factors involved in treatment failures following (Rosenstein et al.), 513
Peripheral pulmonary artery stenoses, course of, in children (Hartmann, Elliott, and Goldring), 212
Pharyngitis, nonstreptococcal (Moffet, Siegel, and Doyle), 51
streptococcal, factors involved in treatment failures following oral penicillin therapy (Rosenstein et al.), 513
Phenylketonuria, maternal: implications for growth and development (Frankenburg et al.), 560
and scleroderma (Kornreich et al.), 571
some observations on dietary treatment of (Steisel) (Letter), 798; (O'Flynn and Hsia) (Reply), 800
Phenylketonuric patients, effect of antibiotics on Guthrie test given to (Fisch et al.), 685
Physiology, acid base, in medicine (Etteldorf) (B. rev.), 640
Pituitary growth hormone suppression with low-dosage, long-acting corticoid administration (Stempfel et al.), 767
Placental transfer of cephalothin (Morrow, Palmisano, and Cassady), 262
Plasma tyrosine levels in patients with cystic fibrosis (Braddock and Barbero) (Letter), 646; (Zack et al.) (Reply), 647
Platelet counts in healthy premature infants (Fogel, Arias, and Kung) (BCLO), 108
Poisoning, acute reversible renal tubular dysfunction following intoxication with methyl-3-chromone (Otten and Vis), 422
in children, neurologic sequelae (Angle, McIntire, and Meile), 531

Poisoning—Cont'd
ingestion of phenothiazine, persistent dystonia in brain-damaged child after (Angle and McIntire), 124
intoxication, lead, acute and chronic, use of chelating agents in treatment, in childhood (Chisolm), 1
in childhood—comprehensive management and prevention (Chisolm and Kaplan), 942
neurologic hazards of diphenylhydantoin in childhood (Patel and Crichton), 676
Polio immunization, oral, of newborn infant; possible method for overcoming interference by ingested antibodies (Katz and Plotkin), 267
Polydipsia, primary—compulsive water drinking (Stevko, Balsey, and Segar), 845
Portal vein gas complicating Hirschsprung's disease with enterocolitis (Verby et al.) (BCLO), 599
Practice, study of, in mid-1960's: general pediatrics (Hessel and Haggerty), 271
Prednisone and intravenous methotrexate, induction of remission in acute leukemia with (Brubaker et al.), 623
and vincristine, combination of, in therapy of acute leukemia in children (Sutow et al.), 426
Premature infants, healthy, platelet counts in (Fogel, Arias, and Kung) (BCLO), 108
thrombocytopenia in—physiological or pathological? (Pearson) (Editor's column), 160
Promazine HCl, failure to avert painful episodes of sickle cell anemia (Oski, Call, and Lessen), 265
Prophylaxis, lapses in: errors of omission (Medovy), 307
Protein and iron content, milk, relationship between, on hematologic values in infancy (Gross), 521
Proteinuria, epidemiology (Wagner et al.), 825
Psychological and physical development of children with early failure to thrive (Glaser et al.), 690
Pulmonary artery stenoses, peripheral, course of, in children (Hartmann, Elliott, and Goldring), 212
edema (Oppenheimer and Avery) (CPC), 143
venous connection, total anomalous, in infancy, palliative balloon atrial septostomy for (Serratto et al.), 734
Pupillotonia, hyporeflexia, and segmental hypohidrosis: autonomic dysfunction in child (Esterly et al.), 852
Purine metabolism, inherited disorders, screening test for—urine uric acid to creatinine ratio (Kaufman, Greene, and Seegmiller), 583
Purpura, thrombotic thrombocytopenic (Singer) (CPC), 788
anaphylactoid, progressing to gangrene and its treatment with heparin (Kisker, Glueck, and Kauder) (BCLO), 748
Pyoderma, superficial, in Lebanon, bacterial etiology (Dajani, Farah, and Kurban), 431

R

Radiotherapy and chemotherapy, concurrent, treatment of Ewing's sarcoma with (Hustu et al.) (BCLO), 249
Renal failure, chronic, extended hemodialysis in children with (Fine et al.), 706
function and histology after long-term vitamin D therapy of vitamin D refractory rickets (Paunier et al.), 833
tubular dysfunction, acute reversible, following intoxication with methyl-3-chromone (Otten and Vis), 422
Research, clinical, collaborative (Mellman) (Editor's column), 807
Resistance, drug, transferable: enteric organisms (Blattner) (Comments), 139
Respiratory distress syndrome, neurological status of survivors (Fisch, Gravem, and Engel), 395
Resuscitation, neonatal, direct digital intratracheal intubation for (Woody and Woody) (BCLO), 903
Retardation, growth, severe, in child with abnormal C-group chromosome (Holmes and Atkins) (BCLO), 119
Retarded, mentally, child, toward greater understanding of parents of (Miller), 699
Rheumatoid arthritis, juvenile, with and without corticosteroid therapy, urinary hydroxyproline excretion in patient with (Smith, Ansell, and Bywaters), 875
Rickets, vitamin D deficiency, in Greece (Lapatsanis, Deliyanni, and Doxiadis), 195
refractory, renal function and histology after long-term vitamin D therapy (Paunier et al.), 833
Rocky Mountain spotted fever (Jaques, Kniker, and Gerald) (CPC), 448
Rubella, congenital, immune competence in: lymphocyte transformation, delayed hypersensitivity, and response to vaccination (White et al.), 299
indirect inguinal hernia in (Hardy and Sever) (BCLO), 416
Rubenstein-Taybi and D_1 trisomy syndromes (Wilson) (BCLO), 404

S

Saliva, submaxillary, from patients with cystic fibrosis and from normal children, immunological studies (Gugler et al.), 548
Sarcoidosis in children (Jasper and Denny), 499
Sarcoma, Ewing's, treatment with concurrent radiotherapy and chemotherapy (Hustu et al.) (BCLO), 249
School: why Johnny failed scissors (Cummings) (Editor's column), 958
Scleroderma and phenylketonuria (Kornreich et al.), 571

Sclerosing panencephalitis, subacute, serum measles antibody titers in patients with, compared with parents and siblings (Jabbour and Sever) (BCLO), 905
Scoliosis and congenital heart disease (Luke and McDonnell), 725
Seizure activity, prolonged, treatment with intravenous diazepam (Bailey and Fenichel), 923
Septal defect, ventricular, possible development of cardiomyopathy in patient with (Goldbarg and Liebman) (BCLO), 411
Septostomy, palliative balloon atrial, for total anomalous pulmonary venous connection in infancy (Serratto et al.), 734
Serologic and hematologic studies in cystic fibrosis (Caplan and Gross), 540
Serum creatine kinase in malnutrition (Balmer and Rutishauser), 783
Sex errors of the body (Litman) (B. rev.), 796
ratio, survival, and parental age, studies on: trisomy 13 (D_1) syndrome (Magenis, Hecht, and Milham), 222
Shigellosis, comparison of intramuscular and oral therapy for (Haltalin et al.), 617
Sickle cell anemia, failure of promazine HCl to avert painful episodes (Oski, Call, and Lessen), 265
and nephrotic syndrome (Barnett and Bernstein) (CPC), 936
Skin, depressed and pitted, facial tumors, syndactyly, and other congenital defects: asymmetric manifestations of apparently new syndrome (Hook) (BCLO), 913
and limb deformities, unilateral, with congenital heart disease in two siblings: lethal syndrome (Falek et al.) (BCLO), 910
Slide agglutination tests, positive, incidence of, for mononucleosis in children (Collins and Louro) (BCLO), 745
Smith-Lemli-Opitz syndrome, congenital heart disease in infant with (Park et al.), 896
Socioeconomic factors, certain, statistical analysis of: sudden unexpected death in infancy (Valdés-Dapena et al.), 387
Spinal dysraphism, occult (Anderson), 163
epidural hematoma, spontaneous, of childhood (Posnikoff), 178
Splenic hemangioma with thrombocytopenia and afibrinogenemia (Thatcher, Clatanoff, and Stiehm), 345
Sporotrichosis versus chromoblastomycosis (Hughes) (BCLO), 253
Stenoses, peripheral pulmonary artery, course of, in children (Hartmann, Elliott, and Goldring), 212
Stenosis, familial supravalvular aortic (McCue et al.), 889
Streptococcal pharyngitis, factors involved in treatment failures following oral penicillin therapy (Rosenstein et al.), 513
Subdural effusions, chronic, massive, microcephaly associated with (Cadman, Lee, and Tucker) (BCLO), 246
Submaxillary saliva from patients with cystic fibrosis and from normal children, immunological studies (Gugler et al.), 548
Supravalvular aortic stenosis, familial (McCue et al.), 889
Survival, sex ratio, and parental age, studies on: trisomy 13 (D_1) syndrome (Magenis, Hecht, and Milham), 222
Sustained-release aspirin in children (Gotoff, McCue, and Wendell), 127
Sweat chlorides, elevated, and hypothyroidism (Madoff) (BCLO), 244
Syndactyly, depressed and pitted skin, facial tumors, and other congenital defects: asymmetric manifestations of apparently new syndrome (Hook) (BCLO), 913
Syndrome(s), apparently new, asymmetric manifestations of: depressed and pitted skin, facial tumors, syndactyly, and other congenital defects (Hook) (BCLO), 913
aseptic meningitic, with cauda equina epidermoid tumor (Cantu and Wright) (BCLO), 114
cardiofacial, additional cases (Cayler) (Letter), 953
characteristic: infantile choriocarcinoma (Witzleben and Bruninga), 374
Down's, disseminated intravascular coagulation in newborn with (Pochedly and Ente) (Letter), 298
and goiter (Ruvalcaba, Ferrier, and Thuline) (Letter), 953
and leukemia in family (Ebbin et al.) (BCLO), 917
familial, of right-sided aortic arch, mental deficiency, and facial dysmorphism (Strong), 882
hemolytic-uremic, thymic alymphoplasia associated with (Dubilier, Chadwick, and Leddy), 714
Holmes-Adie: pupillotonia, hyporeflexia, and segmental hypohidrosis: autonomic dysfunction in child (Esterly et al.), 852
Hurler's, biochemical and ultrastructural studies in (Loeb et al.), 860
commonly used tests in detection (Carter, Wan, and Carpenter), 217
of idiopathic hypercalcemia of infancy, mitral insufficiency in association with (Vazquez, Zuberbuhler, and Kenny) (BCLO), 907
lethal: unilateral limb and skin deformities with congenital heart disease in two siblings (Falek et al.) (BCLO), 910
McCune-Albright's, following adrenalectomy for Cushing's syndrome in infancy (Aarskog and Tveteraas), 89
nephrotic, and sickle cell anemia (Barnett and Bernstein) (CPC), 936
new dominantly inherited: dysmorphogenesis of joints, brain, and palate (Aase and Smith) (BCLO), 606

Syndrome—Cont'd
respiratory distress, neurological status of survivors (Fisch, Gravem, and Engel), 395
of ocular abnormalities, calcification of cartilage, and failure to thrive (Punnett and Kirkpatrick) (BCLO), 602
Rubinstein-Taybi and D_1 trisomy (Wilson) (BCLO), 404
Smith-Lemli-Opitz, congenital heart disease in infant with (Park et al.), 896
trisomy D_1, leukemia, and immunologic abnormalities (Hecht) (Letter), 296; (Zuelzer) (Reply), 296
trisomy 13 (D_1): studies on parental age, sex ratio, and survival (Magenis, Hecht, and Milham), 222
Waardenburg's (Fanaroff and Levin) (Letter), 151

T

Telephone, use by low-income families (Heagarty et al.), 740
Test(s), commonly used, in detection of Hurler's syndrome (Carter, Wan, and Carpenter), 217
diagnostic, comparative study of: von Willebrand's disease (Abildgaard et al.), 355
for enzyme defect: X-linked uric aciduria with neurological disease and self-mutilation (Fujimoto, Greene, and Seegmiller) (BCLO), 920
for glucose-6-phosphate dehydrogenase deficiency (Beutler) (Letter), 297; (Hsia) (Reply), 297
Guthrie, given to phenylketonuric patients, effect of antibiotics on (Fisch et al.), 685
positive slide agglutination, incidence of, for mononucleosis in children (Collins and Louro) (BCLO), 745
screening, for inherited disorders of purine metabolism—urine uric acid to creatinine ratio (Kaufman, Greene, and Seegmiller), 583
specific IgM antibody, in neonatal congenital syphilis (Scotti and Logan) (BCLO), 242
Tetanus toxoid, allergic reactions to (Perez-Martin) (Letter), 648; (Steigman) (Reply), 648
Thalassemia, hyperprolinemia and hyperprolinuria in (Liakakos, Karpouzas, and Agathopoulos) (BCLO), 419
Therapy, ampicillin, for shigellosis, comparison of intramuscular and oral (Haltalin et al.), 617
corticosteroid, nephrosis, and thrombosis (Lieberman et al.), 320
with and without, urinary hydroxyproline excretion in patient with juvenile rheumatoid arthritis (Smith, Ansell, and Bywaters), 875
cyclophosphamide, for nephrosis (Grunberg) (Letter), 641; (Etteldorf) (Reply), 641; (West) (Reply), 641
Therapy—Cont'd
long-term vitamin D, of vitamin D refractory rickets, renal function and histology after (Paunier et al.), 833
of acute leukemia in children, combination of vincristine and prednisone in (Sutow et al.), 426
penicillin, oral, of streptococcal pharyngitis, factors involved in treatment failures following (Rosenstein et al.), 513
Thrombocytopenia and afibrinogenemia, splenic hemangioma with (Thatcher, Clatanoff, and Stiehm), 345
in premature infants—physiological or pathological? (Pearson) (Editor's column), 160
Thrombocytopenic purpura, thrombotic (Singer) (CPC), 788
Thrombosis, nephrosis, and corticosteroid therapy (Lieberman et al.), 320
Thrombotic thrombocytopenic purpura (Singer) (CPC), 788
Thymic alymphoplasia associated with hemolytic-uremic syndrome (Dubilier, Chadwick, and Leddy), 714
Thyroid carcinoma (Miller) (Letter), 645; (Sussman, Librik, and Clayton) (Reply), 646
Titers, serum measles antibody, in patients with subacute sclerosing panencephalitis, compared with parents and siblings (Jabbour and Sever) (BCLO), 905
Toxocara antibodies in eosinophilic cystitis (Perlmutter, Edlow, and Kevy), 340
Toxoid, tetanus, allergic reactions to (Perez-Martin) (Letter), 648; (Steigman) (Reply), 648
Transferable drug resistance: enteric organisms (Blattner) (Comments), 139
Transfer, placental, of cephalothin (Morrow, Palmisano, and Cassady), 262
Treatment of acute and chronic lead intoxication in childhood, use of chelating agents in (Chisolm), 1
dietary, of phenylketonuria, some observations on (Steisel) (Letter), 798; (O'Flynn and Hsia) (Reply), 800
of Ewing's sarcoma with concurrent radiotherapy and chemotherapy (Hustu et al.) (BCLO), 249
of prolonged seizure activity with intravenous diazepam (Bailey and Fenichel), 923
updating of, of congenital adrenal hyperplasia (Migeon) (Editor's column), 805
Trisomy 13 (D_1) syndrome: studies on parental age, sex ratio, and survival (Magenis, Hecht, and Milham), 222
leukemia, and immunologic abnormalities (Hecht) (Letter), 296; (Zuelzer) (Reply), 296
and Rubinstein-Taybi syndromes (Wilson) (BCLO), 404
Tubular renal dysfunction, acute reversible, following intoxication with methyl-3-chromone (Otten and Vis), 422

Tumor, epidermoid, equina, cauda, aseptic meningitic syndrome with (Cantu and (Wright) (BCLO), 114
Tumors, facial, depressed and pitted skin, syndactyly, and other congenital defects: asymmetric manifestations of apparently new syndrome (Hook) (BCLO), 913
Tyrosine levels, plasma, in patients with cystic fibrosis (Braddock and Barbero) (Letter), 646; (Zack et al.) (Reply), 647

U

Unilateral limb and skin deformities with congenital heart disease in two siblings: lethal syndrome (Falek et al.) (BCLO), 910
Uremic, hemolytic-, syndrome, thymic alymphoplasia associated with (Dubilier, Chadwick, and Leddy), 714
Uric acid levels in full-term and low–birth-weight infants (Marks et al.) (BCLO), 609
urine, to creatinine ratio—screening test for inherited disorders of purine metabolism (Kaufman, Greene, and Seegmiller), 583
aciduria, X-linked, with neurological disease and self-mutilation: diagnostic test for enzyme defect (Fujimoto, Greene, and Seegmiller) (BCLO), 920
Urinary hydroxyproline excretion in patient with juvenile rheumatoid arthritis, with and without corticosteroid therapy (Smith, Ansell, and Bywaters), 875
Urine specimens, stored, cytomegaloviruses in (Feldman) (BCLO), 611
uric acid to creatinine ratio—screening test for inherited disorders of purine metabolism (Kaufman, Greene, and Seegmiller), 583

V

Vaccination, response to, lymphocyte transformation, and delayed hypersensitivity: immune competence in congenital rubella (White et al.), 229
Vein gas, portal, complicating Hirschsprung's disease with enterocolitis (Verby et al.) (BCLO), 599
Venous connection, total anomalous pulmonary, in infancy, palliative balloon atrial septostomy for (Serratto et al.), 734
Ventricular septal defect, possible development of cardiomyopathy in patient with (Goldbarg and Liebman) (BCLO), 411
Vincristine and cyclophosphamide, survival of children with neuroblastoma treated with combination chemotherapy (Pinkel et al.), 928
and prednisone, combination of, in therapy of acute leukemia in children (Sutow et al.), 426
treatment of Ewing's sarcoma with concurrent radiotherapy and chemotherapy (Hustu et al.) (BCLO), 249
Viral disease, control (Meyer), 653
Virilism, congenital adrenal, and Addison's disease, comparative effect of 6α-fluoroprednisolone, 6α-methylprednisolone, and hydrocortisone on linear growth of children with (Laron and Pertzelan), 774
Virus, Coxsackie (Rosenberg) (CPC), 283
infection, Coxsackie, associated with myopericarditis (Blattner) (Comments), 932
Visceral changes, other, associated with encephalopathy, acute hemorrhagic pancreatitis and (Stover, Wanglee, and Kennedy), 235
Vitamin D deficiency rickets in Greece (Lapatsanis, Deliyanni, and Doxiadis), 195
therapy, long-term, of vitamin D refractory rickets, renal function and histology after (Paunier et al.), 833
von Willebrand's disease: comparative study of diagnostic tests (Abildgaard et al.), 355

W

Waardenburg's syndrome (Fanaroff and Levin) (Letter), 151
Water drinking, compulsive—primary polydipsia (Stevko, Balsley, and Segar), 845

X

X-linked uric aciduria with neurological disease and self-mutilation: diagnostic test for enzyme defect (Fujimoto, Greene, and Seegmiller) (BCLO), 920
